Diary with trip report and localities visited

Wednesday 12/7 – Friday 14/7 The flight from Milano to Sao Paulo was cancelled!! Varig is in big economic trouble. This would follow us throughout the whole trip. In panic, we had to change plane at the very last minute leaving 1½ day earlier than planned! Left home at 21,30 wednesday evening for a night drive to Stockholm, left at 06,20 thursday morning to Miami (!) via Frankfurt. Arrived at Miami, had to wait 5 hours and then off to Mexico City! Another loong wait this time inside the plane out at the taxi-strip. 4 hours later on to Belem at the Atlantic coast. By now all sense of timing and night-or-day was gone. Refueled at Belem and set off at the last flight to Sao Paulo. Arrived finally at 19,00 local time after 55 hours traveling. Much to our surprise the luggage did show up after some palaver with Varig. Our return tickets are valid but there is no flight! We are promised information when coming back to Sao Paulo. The very nice Mr. Edson Endrigo was patient waiting and bid us welcome. Left the airport approx. 20,00 and checked in at Hotel Simon, alt 1080 m 23,30 at night.

Saturday 15/7. Set out at 06,30 at Hotel Simon patio. Finally the birding takes off!! New and beautiful birds are abundant at the feeders and in the trees in the garden. This mountainous forest at 1080 alt. was very productive. Walking parts of Tres Pico Trail and Edson show extremely good skill in guiding. Good views good bird good guide and the disaster to get here were forgotten! Spend the afternoon at lower trail, still productive and ended this good day at Normas garden where we had unbelievable view and numbers of hummingbirds and tanagers. Cold morning, most sunny, top-temp today +20°C.

Sunday 16/7. Early out of bed at 03,30 to the higher parts of Itatiaia NP 1,5 h from Hotel Simon. We reached the Cloudforest in prime time when bird activities are at a peak. Singing Black-and-gold Cotinga is easy to hear but hard work and bushtrashing is needed to see it. Eventually everyone got good views. The araucaria forest was spectacular and

Araucaria Tit-Spinetail one of the highlights. Spend late afternoon in farmlands N of Itatiaia city and the evening at a marsh on the northern parts of Itatiaia city. At night another pleasant species-list led by Edson and ends the Itatiaia NP visit with a good meal at the hotel.

Monday 17/7. Rise but did not shine at 02,30. No info about the return trip. Flight to Campo Grande 09,45, Widstrand, the tripleader check briefly about info of return tickets but none. New promises that it will be answers when coming back to Campo Grande. Fairly fast transit to taxi-airplanes. The 4-seated Cessnas took us out to Fz San Francisco. Arrived about 14,30, hanged around, photographed, some wrote postcard until dinner. After this the best trips ever started. Spotlighting from the open Jeep called Jaguaretê. A fast and skill girl handled the spotlight high up at the jeep and this arrangement allowed everyone to see the animal well.

Not more than 15 minutes after the start one Man Wolf was seen and it was completely unshy of the light. It kept itself busy in hunting the fruits that is its basic food supply.

The tour continues just a few 100 meters when our lightmaster finds a Ozelot hunting mice just 10 meters from us!!!! Marvellous views of this beautiful cat. Even more beautiful than

Onca Pintada . Great Pooto, Giant anteater,

Barn Owls, 10 000 caimans and, nearly forgot,

The JAGUAR, a powerful female digesting its supper!

Loads of images in the head when trying to get some sleep.

Spectacled Cayman

Tuesday 18/7. up at 05,30. Another jeeptour also productive and a long boardwalk through the marshes in the morning. Birded around until 11,00, lunch at Fz San Francisco and a 20 min. flight to Fz Barra Mansa on the shore of Rio Negro. Siesta and then a boat trip upstream in search of Giant Otter. Neotropical Otter made my heart beat faster until I realized that it was small. Anyway a nice animal. Boats are not the best when birding but Bare-faced- Currasows and Boatbilled Heron is seen. Above +35°C.

Wednesday 19/7 Breakfast at 05,30 boats downstream. Chilly morning and of course low activity of the birds. When the sun starts to warm the birds start to sing. There had been good with a guide here, which we didn't have. 1,5 h later we saw a biggish animal further downstream! Vi scanned intensive and soon a GIANT OTTER male shown up, approach raised in the water to check us out and then quickly disappears down the river. Good Luck. We pulled the boats upon land and did some birding by foot which shown to be much better then bird by boat. In 15 minutes another 10 species is seen among them very good views of Mato Grosso Antbird. While trying to call the fellow tripmembers another 4 Giant Otters coming swing and whistling very close to me and Kurt. Close up views, not bad at all. Back to Fz Barra Mansa lunch and siesta. Anna and Anders goes for a canoe-trip. In the afternoon we enters a tractor wagon and goes nightshining with spotlights. Howler monkeys, Coatis, Crabeating foxes and loads of nightjars.

Dinner at late night. Very unpleasant order upon giving tip. A huge amount is demanded by the swedish co-tripleader that was very disturbing and brought a grey cast to the visit. This was to be shown at all Fazendas in Pantanal. It felt more or less like we should pay extra to keep their friends in a good mode until next visit..... Above +35°C.

Thursday 20/7 Breakfast at 05,00 and off to Fz Baia das Pedras at 05,30 in four pickups/jeeps. Very bad planning though we just doing transportation in the prime birding time and rushes through good habitat and nice forest. The only short birding stops are when any other car than the tourleaders is first in line and we spot a few birds. Only longer stop is when Staffan want to take photographs of the sunrise. Everyone was thinking there should be a real nice place worth hurrying to but to our surprise we did hurry to lunch and siesta. What a disappointment!! Fz Baia das Pedras was a nice place but *expensive*. Scary 15 Real for a capirihina! Anna, Anna and Anders went horseriding at 15,00 when the others birding the surroundings by foot. Anna was on a horseback 2nd time in her life that was a courageous thing of her to do. Lots of Macaws today. Above +35°C.

Friday 21/7

Early morning birding in the garden was hot with Cream-backed Woodpecker and Great Rufous Woodcreeper. Entered a small lorry and birded from the loading

Paraque

platform. Not to bad. Continued deeper into Pantanal about 3 hours and produce some good birds. Lunch and siesta for some, Helge and Anders go birding in clandestinely* in the garden and surroundings. Good views of Yellow-faced Amazon and Lesser yellowheaded vultures. Another gamedrive again pays of as we see a Tapir with calf in the most beautiful evening light slow walking on a riparian bank. Dinner and a late gamedrive give 2 common Potoos and Giant Anteater with a cub at her back. Above +35°C.

Saturday 22/7. Set out at 06,00 in the surroundings to the Main buildings. At 09,00 off to Fz Mangabal which is another 2,5 h jeepdrive deeper into Pantanal wilderness. Nice Place not at all that expensive as Fz Baia dos Pedros. Lots of Redlegged Seriemas but no Puma. Nice dinner and gamedrive for Puma. No puma but lots of nightjars. Anders caught a Pauraque and showing it close-up to everyone. Above +30°C.

Sunday 23/7. Morning as usual and off at 06,00. This time just a short drive and finally some birding by foot. Immediately we find lots of nice birds. However some of the best views today were to be found in the garden just in front of the kitchen; the female cook took good care of animals and had perfect knowledge of where and when to look. She firmly

shows us Ferruginous Pygmy-Owl who was cooperative as photographer's model. Furthermore she knew where the Tamandua slept during the day. Gamedrive after a nice dinner reveals 100's of nightjars and one Scissor-tailed Nightjar caught and shown. Top-temp today +42°C

Monday 24/7.

Another horse-ride fore half of us the rest birded the surroundings by foot. From 11,00 mostly a long day of transportation Cessna to Campo Grande. Still no Return tickets home and no info whatsoever. Arrived at Campo Grande 14,30 didn't do any birding, haven't got a chance. Spend all afternoon evening in the town, waiting for partydinner to celebrate the Pantanal trip. Walks 2 hours in the town, sending some E-mail from a cheap Internetcafé. Doing nothing and less until partytime at a BBQ restaurant. Loads of meat (and wine) and a real heady Caprihinia. Top-temp today +38°C

Tuesday 25/7.

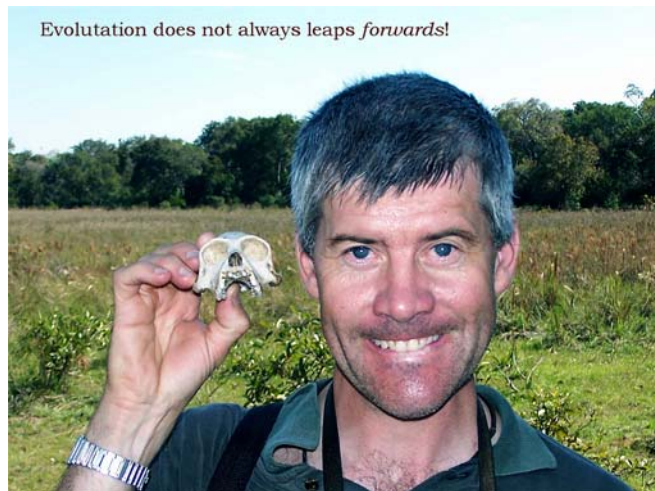

Morning flight to Cuiba, met our guide from Pantanal Bird Club, Fabiano, bus to Chadapa do Guimarães NP. Lunch downtown at Fellis. Check in at Posada de Chapada, good place to stay. Starts birding at the Great rift and the Waterfall. Crested Black-tyrant, Bisquitate swift (after some anxiety how to separate them from white-collared) among others. Not that hot today.

Wednesday 26/7

Breakfast at the Posada at 05,00. Birds Vale de Sol 06,15-11,00. Almost first bird when out of the bus was Horned Sungem!! This is a real dry bushy Cerrado and of course all the Cerrado special birds with Chapada Flycatcher and Campo Flycatcher on top. Getting hot at noon. Lunch and siesta until 15,00 when the more forested parts are visited. We start at Jamaca river Valley road where Lettered Araçari is the best bird. Manakins and Flycatcher also giving good views. Top-temp today +38°C

Thursday 27/7

Chadapa do Guimarães NP, Agua Fria road. Another Cerrado-spot with lots of birds and Fabiano shows his skills. Birds on at the hooter and hotter road. Good species and quite a lot of birds. After Lunch and siesta to the forest at Mirante where manakins are very welcome views. Late walk to a ravine where Bandtailed Nightjar and Barn owl resides. Again, dinner at Fellis. Top-temp today +42°C

Friday 28/7 Got a telephone from home at 04,40 saying that there should be re-booked flights by Flygpoolen at Lufthansa. Birding come then. Agua Fria road in the first morning, yields Blue-tufted Starthroat, Rufouswinged Antwren among others. Takes the bus a 30 min. to Vale de Bençao. Hooded Tanager, Blue-crowned Motmot and Long-billed Starthroat as top birds. Leaves Chapada with bus saying goodbye to our nice and skilled guide Fabiano, who been showing us lots of good species, Arrivals Cuiba airport by a comfortable margin. However no tickets to be seen or picked up at Cuiba. Makes the bird observation-list at the café. Says goodbye to both trip leaders (though still having no flight tickets home), and to Donald and Lars who sets out to bird another 4 days at Manuas. Our flight to Sao Paolo is, as usual, late and we arrives Sao Paolo late. Donald and Lars went to Manaus, The tripeader lefts us to party in Campo Grande and the rest of us went to Sao Paolo in search of our flight tickets home. I had to do a lot of talking and walking in Sao Paolo airport but worthless anyway. Have to go back tomorrow. Have to spoil the morning birding at Ubatuba in search of tickets. Not good!

Saturday 29/7. Up 04,30. At the airport 05,00, talk to the Lufthansa people, and finally info worth something. There are valid bookings made by Flygpoolen. Lufthansa will fly us tomorrow but we have to get vouchers and new tickets from Varig. More easily said than done. This is the kind of situations you really need a tourleader. Well we didn't have one but manage to talk our way through with good help from Edson. Finally everyone got tickets and at 08,00 we set of to Ubatuba. Rain and rain but we put up with that and kept birding and spirit high! As result of this we saw real good birds like Buff-throated Purpletuft among others. More and even heavier rain in the afternoon. We visited Jonas Place, a marvellous man and even a more marvellous garden: LOAD and LOAD of hummers and tanagers. More than one full hour and not a single moment without Hummingbirds around my head! This made me really happy! Festive Coquettes is a real beauty and Saw-billed Hermit has great charm. Nightwalk yields howling Tawny-browed Owls. End-of-trip celebration dinner a pizzeria (!) was a good party, with excellent pizzas, nice Brazilian (!) wine and high team spirit. Mikael was a gentleman and treated all the wine. Top-temp today +20°C

Sunday 30/7. Up and packed leaving the hotel at 05,00 and birds the forest along the slopes close to the Atlantic. Edsons inveterate energy and very high birding skills keep producing birds in excess of two hours but soaking wet in the HEAVY rain, we are forced to take cover. We did that at Jonas Place where the Hummers, Longbilled Wren and beautiful observations is a very nice ending of this Brazilian Trip. Time to stop birding and go back to the hot summer in Sweden. Top-temp today +20°C in heavy rain all day. Midday flight to Frankfurt, transfer and flight to Gothenburg, Oslo and Stockholm respectively, everyone arrives in good order home late **Monday** morning 31/7.

= Lönnskådning (eg skådar i lönndom)

Pantanal bird Club Based in Chapada

Itatiaia, Ubatuba

All of these guides were good guides who found all the target birds, had very well arranged transportations and were good companions on the tour.

Some Fazendas and Hotel:

Fz San Francisco	Produces extreme accurate gamedrives.
Fz Barra Mansa	The place to see Giant Otter
Fz Baia das Pedras	Lots of Macaws, Tapir. Expensive, very much so.
Fz Mangabal	Best Fazenda, very good food very friendly staff, lots of birds and animals close to the buildings.
Pousada da Chadapa	Good birding in the garden no problem with early breakfast nor parking.

A good advise is as follows;

Let the guides take care of Guiding, transportation and lodging!

One of the best happenings of the whole trip;
The Hummers at Jonas` Place!!

Birds seen:

1. Greater Rhea *Rhea americana*
Singles most days in Pantanal.
2. Brown Tinamou *Crypturellus obsoletus*
2 heard only in Ubatuba 30/7.
3. Undulated Tinamou *Crypturellus undulatus*
Up to 5 birds heard in Fz San Francisco and up to 10 along Rio Negro
4. Small-billed Tinamou *Crypturellus parvirostris*
1 heard by part of the group Chapada 27/7.
5. Red-Winged Tinamou *Rhynchotus rufescens*
2 birds seen well at transport between Fz Baia das Pedras to Fz Mangabal 22/7.
6. Least Grebe *Tachybaptus dominicus*
25 in two ponds 19/7 Fz Barra Mansa.

7. Magnificent Frigatebird *Fregata magnificens*
10 at the coast 29/7
8. Neotropic Cormorant *Phalacrocorax brasilianus*
Singles most days in Pantanal, 100 Ubatuba 29/7
9. Brown Booby *Sula leucogaster*
Several at the coast Ubatuba 29-30/7
10. Anhinga *Anhinga anhinga*
Singles every day in Pantanal.
11. Cocoi Heron *Ardea cocoi*
Seen every day in Pantanal.
12. Great Egret *Ardea alba*
1 16/7, singles most days in Pantanal, 10 Ubatuba 29/7
13. Snowy Egret *Egretta thula*
1 16/7, singles all days in Pantanal, 3 29/7
14. Little Blue Egret *Egretta caerulea*
3 19/7, 1 20/7, 1 22/7
15. Cattle Egret *Bubulcus ibis*
2 16/7, Several seen, not counted most days in Pantanal Chapada and Ubatuba.
16. Striated Heron *Butorides striatus*
Singles every day in Pantanal, 1 30/7
17. Whistling Heron *Syrigma sibilatrix*
Singles most days in Pantanal, 2 29/7
18. Black-crowned Night-Heron *Nycticorax nycticorax*
1 16/7, Several seen, not counted most days in Pantanal
19. Rufescent Tiger Heron *Tigrisoma lineatum*
Up to 10 all days in Pantanal
20. Boat-Billed Heron *Cochlearius cochlearius*
1 seen well at dusk Fz Barra Mansa 18/7.
21. American Wood-Stork *Mycteria americana*
Up to 20 birds 20-23/7
22. Maguari Stork *Ciconia maguari*
Singles most days in Pantanal
23. Jabiru Stork *Jabiru mycteria*
Up to 20 all days in Pantanal

24. Plumbeous Ibis *Harpiprion caerulescens*
Only seen in Pantanal as follows: 5 birds 18/7, 1 20/7, 6 22/7, 10 23/7 and 10 24/7.
25. Buff-necked Ibis *Theristicus caudatus*
Singles most days in Pantanal
26. Green Ibis *Mesembrinibis cayennensis*
Singles all days in Pantanal
27. Bare-faced Ibis *Phimosus infuscatus*
Singles most days in Pantanal
28. Roseate Spoonbill *Ajaja ajaja*
Up to 15 most days in Pantanal but 76 21/7 and 86 22/7
29. Southern Screamer *Chauna torquata*
Up to 25 most days in Pantanal
30. Fulvous Whistling-Duck *Dendrocygna bicolor*
8 Barra Mansa 19/7
31. White-faced Whistling-Duck *Dendrocygna viduata*
6 Barra Mansa 19/7 and 8 there 20/7
32. Black-bellied Whistling-Duck *Dendrocygna autumnalis*
Locally common in Pantanal
33. Moscovy Duck *Cairina moschata*
Singles most days, up to 30 best day, in Pantanal
34. Brazilian Teal *Amazonetta brasiliensis*
6 16/7, up to 20 all days in Pantanal
35. Black Vulture *Coragyps atratus*
Seen every day, from 4 to 74 ex
36. Turkey Vulture *Cathartes aura*
Seen every day in Itatiaia and Pantanal with up to 86 22/7, Several seen in Chpada
37. Lesser Yellow-Headed Vulture *Cathartes burrovianus*
Singles most days in Pantanal topfigure15 the 23/7 Fz Mangabal
38. King Vulture *Sarcoramphus papa*
1 seen from above in the Taxiflight 17/7 and 24/7. 1 seen far away 22/7 Fz Mangabal.
39. Snail Kite *Rostrhamus sociabilis*
Up to 10 most days in Pantanal
40. Pearl Kite *Gampsonyx swainsonii*
Only seen at Chapada De Guimarães, 2 25/7, 1 27/7

41. Sharp-shinned Hawk *Accipiter striatus*
1 seen weell 26/7
42. Savanna Hawk *Buteogallus meridionalis*
Up to 20 most days in Pantanal, singles most days in Chapada and 1 each day in Ubatuba
43. Black-collared Hawk *Busarellus nigricollis*
Singles most days in Pantanal
44. Great Black-Hawk *Buteogallus urubitinga*
3 Along Rio Negro at Barra Mansa 18/7
45. Crane Hawk *Geranospiza caerulescens gracilis*
1 Fz Mangabal 23/7
46. Roadside Hawk *Buteo magnirostris*
1 16/7, up to 10 all days in Pantanal, singles in Chapada and Ubatuba
47. White-tailed Hawk *Buteo albicaudatus*
3 Itatiaia NP 16/7, 1 there 17/7, 6 Panatanal 18/7, 1 Chapada 27/7 and 1 Ubatuba 30/7
48. Black Hawk-Eagle *Spizaetus tyrannus*
1 Itatiaia NP 15/7, 2 Ubatuba 29/7
49. Southern Crested Caracara *Caracara plancus* (*the Northern form cheriwayi is not included here*)
Up to 10 all days
50. Yellow-headed Caracara *Milvago chimachima*
Singles most days
51. Laughing Falcon *Herpetotheres cachimans*
1 seen at the Waterfall Chapada and only heard Ubatuba 28 and 29/7
52. Barred Forest-Falcon *Micrastur ruficollis*
1 seen with some effort 15/7
53. American Kestrel *Falco sparverius*
Singles most days
54. Aplomado Falcon *Falco femoralis*
2 Fz Baia das Pedras 21 and 22/7.
55. Bat Falcon *Falco ruficularis*
2 Fz San Francisco 18/7, 1 Fz Barra Mansa 19/7, 1 Fz Mangabal 22/7 and 23/7 and 1 Chadapa do Guimarães NP 25/7
56. Chaco Chachalaca *Ortalis canicollis*
Up to 100 all days in Pantanal, ugly noise but a fun name.

Bat Falcon

57. Rusty-margined Guan *Penelope superciliaris*
2 seen in the forest Chadapa do Guimarães NP 26/7
58. Dusky-legged Guan *Penelope obscura*
About 10 per day in Itatiaia
59. Blue-throated Piping-Guan *Pipile cumanensis*
Singles most days in Pantanal
60. Bare-faced Curassow *Crax fasciolata*
Fairly common along Rio Negro.
61. Limpkin *Aramus guarauna*
Singles most days in Pantanal
62. Blackish Rail *Rallus nigricans*
2 seen Itatiaia NP 16/7
63. Gray-necked Wood-Rail *Aramides cajanea*
Up to 10 most days in Pantanal
64. Slaty-breasted Wood-Rail *Aramides saracura*
1 heard 16/7, 1 seen well Ubatuba 30/7
65. Rufous-sided Crake *Laterallus melanophaius*
2 Itatiaia NP 16/7
66. Common Moorhen *Gallinula chloropus*
1 Fz Barra Mansa 19/7
67. Sungrebe *Heliornis fulica*
2 Fz San Francisco 17/7
68. Red-legged Seriema *Chunga cristata*
Seen well and at close range several times in
Pantanal 5 20/7, 8 21/7, 10 22/7, 23 23/7 and
heard most days in Chapada
69. Wattled Jacana *Jacana jacana*
Several seen, not counted all days in Pantanal
70. Black-necked Stilt *Himantopus mexicanus*
Several seen, not counted most days in Pantanal
71. Southern Lapwing *Vanellus chilensis*
Several seen, not counted almost all days
72. Pied Plover (Lapwing) *Hoploxypterus cayanus*
Seen, not counted 18 and 19/7, 1 22/7 and 2 23/7

The Red-legged Seriema

73. Collared Plover *Charadrius collaris*
1 Fz Barra Mansa 19/7, 1 Fz Baia das Pedras 21/7
74. S. American (Paraguyan) Snipe *Gallinago paraguaiae*
5 Fz Barra Mansa 20/7
75. Greater Yellowlegs *Tringa melanoleuca*
1 Fz Mangabal 23/7
76. Lesser Yellowlegs *Tringa flavipes*
3 Fz Mangabal 22/7
77. Kelp Gull *Larus dominicanus*
6 Ubatuba 29/7
78. Large-billed Tern *Phaetusa simplex*
Up to 10 most days in Pantanal
79. Yellow-billed Tern *Sterna superciliaris*
8 Fz Barra Mansa 18/7 and 5 there 19/7
80. Black Skimmer *Rynchops niger*
Fairly common along Rio Negro 10 18/7, 10 19/7 and 1 22/7
81. Rock Dove *Columba livia*
Several seen, not counted 17 and 29/7
82. Picazuro Pigeon *Columba picazuro*
common
83. Scaled Pigeon *Columba speciosa*
1 Chadapa do Guimarães NP 28/7
84. Pale-vented Pigeon *Columba cayennensis*
Several seen, not counted 19, 26 and 27/7
85. Plumbeous Pigeon *Columba plumbea*
1 15 and 16/7 at Itatiaia NP.
86. Eared Dove *Zenaida auriculata*
Up to 20 all days in Pantanal, 2 Ubatuba 29/7
87. Ruddy Ground-Dove *Columbina talpacoti*
Singles in Itatiaia and Ubatuba, up to 10 all days in Pantanal and Chapada
88. Picui Ground-Dove *Columbina picui*
At least 15 all days in Pantanal
89. Long-tailed Ground-Dove *Uropelia campestris*
3 Fazenda Baia das Pedras 21/7

90. Scaly Dove *Scardafella squammata*
Up to 10 most days in Pantanal
91. White-tipped Dove *Leptotila verreauxi*
Up to 10 all days in Pantanal
92. Hyacinth Macaw *Anodorhynchus hyacinthinus*
Seen most days in Pantanal with following numbers: 7 18/7, 8 19/7, 24 20/7, 11 21/7, 20 22/7 and 10 23/7. Often giving very good views!
93. Blue-and-Yellow Macaw *Ara ararauna*
Also seen most days in Pantanal: 5 18/7, 8 19/7, 6 20/7, 9 21/7 and 3 23/7
94. Red-and-Green Macaw *Ara chloroptera*
In Pantanal: 2 20/7, 5 21/7, 6 22/7 and 5 23/7. In Chapada 5 - 10 all days

Blue-and-Yellow Macaw

Red-and-Green Macaw

95. Blue-winged Macaw *Procyrrhura maracana*
4 Chadapa do Guimarães NP 25/7 and 2 there 27/7
96. Golden-collared Macaw *Procyrrhura auricollis*
8 Fz San Francisco 17/7, 6 Fz Barra Mansa 19/7
97. Red-shouldered Macaw *Diopsittaca nobilis*
In Pantanal: 3 20/7, 5 21/7, 3 22/7 and 1 23/7. In Chapada 5 26/7
98. Blue-crowned Parakeet *Aratinga acuticaudata*
2 Fz Barra Mansa 18/7 and 2 there 19/7
99. White-eyed Parakeet *Aratinga leucophthalmus*
8 Itatiaia NP 16/7, up to 10/ day in Pantanal and Chadapa do Guimarães NP
100. Peach-fronted Parakeet *Aratinga aurea*
Up to 10/day in Pantanal and Chadapa do Guimarães NP.

101. Nanday Parakeet *Nandayus nenday*
Common Fz San Francisco 17-18/7, 10 at Fz Barra Mansa 19/7
102. Maroon-bellied Parakeet *Pyrrhura frontalis*
Several seen, not counted 15/7
103. Monk Parakeet *Myiostitta monachus*
Up to 10 most days in Pantanal
104. Blue-winged Parrotlet *Forpus xanthopterygius*
6 Itatiaia NP 15/7, 3 Fz Barra Mansa 19/7 and heard 29/7
105. Golden-chevroned Parakeet *Brotogeris chiriri*
2 16/7, 5 19 and 20/7, up to 10 all days in Chapada
106. Plain Parakeet *Brotogeris tirica*
2 Itatiaia NP 15/7, about 25 Ubatuba 29/7
107. Blue-headed Parrot *Pionus menstruus*
15 Chadapa do Guimarães NP 25/7, 2 there 28/7
108. Scaly-headed Parrot *Pionus maximiliani*
20 Itatiaia NP 15/7, 4 there 16/7, 1 Fz Baia das Pedras 20/7 and 3 Ubatuba 29/7
109. Yellow-faced Amazon *Amazona xanthops*
1 ad and 1 juvenil in Fz Baia das Pedras garden 21/7
110. Turquoise-fronted Amazon *Amazona aestiva*
Up to 10 all days in Pantanal
111. Squirrel Cuckoo *Piaya cayana*
Singles most days in Pantanal and Chapada
112. Guira Cuckoo *Guira guira*
Up to 20/ days in Pantanal and up to 10/day in Chapada
113. Striped Cuckoo *Tapera naevia*
Only heard Itatiaia NP 16/7
114. Smooth-billed Ani *Crotophaga ani*
About 10 all days
115. Barn Owl *Tyto alba*
3 Fz San Francisco 17/7, 1 Fz Barra Mansa 19/7 and 1 Chadapa do Guimarães 27/7
116. Tropical Screech-Owl *Otus choliba*
2 Fz Baia das Pedras 20/7.
117. Variable Screech-Owl *Otus atricapilla*
1 heard 29/7 and 1 30/7

Burrowing Owl

118. Tawny-browed Owl *Pulsatrix koeniswaldiana*
 Heard 15/7, 2 29/7
119. Ferruginous Pygmy-Owl *Glaucidium brasilianum*
 2 beautiful seen in the garden at Fz Mangabal 23/7 and heard 26/7
120. Burrowing Owl *Athene cunicularia*
 Up to about 15 all days except first and last day
121. Striped Owl *Asio clamator*
 1 giving good views in the searchlight at the Fz Baia das Pedras 17/7

122. Great Potoo *Nyctibius grandis*
 1 also at gamedrive at night 17/7

123. Common Potoo *Nyctibius griseus*
 1 19/7, 2 nearly caught 21/7

124. Rufous Nightjar *Caprimulgus rufus*
 1 Fz San Francisco 17/7

125. Little Nightjar *Caprimulgus parvulus*
 2 Fz Barra Mansa 19/7

126. Band-winged Nightjar *Caprimulgus longirostris*
 1 seen close and 1 distant Chadapa do
 Guimarães NP 27/7

Ferruginous Pygmy-Owl

127. Nacunda Nighthawk *Podager nacunda*
 Between 10 and 100 20 - 23/7

128. Scissor-tailed Nightjar *Hydropsalis torquata*
 5 seen at Rio Negro 17/7, 2 seen which one caught 23/7.

129. Sickle-winged Nightjar *Eleothreptus anomalus*
 About 20 18/7

130. Pauraque *Nyctidomus albicollis*
 Up to 20 most days in Pantanal and singles most days in Chapada

131. White-collared Swift *Streptoprocne zonaris*
 4 migrating at Itatiaia NP 16/7, up to 100/day in Chadapa do Guimarães NP.

132. Biscutate Swift *Streptoprocne biscutata*
 At least 20 seen among Whitecollared swifts in and under the waterfall Chadapa do
 Guimarães NP 25/7.

133. Great Dusky Swift *Cypseloides senex*
 About 20 25/7 and 15 26/7

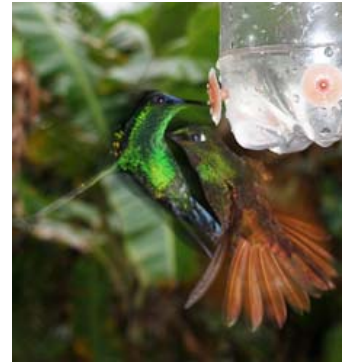

134. Gray-rumped Swift *Chaetura cinereiventris*
1 Ubatuba 29/7
135. Short-tailed Swift *Chaetura brachyura*
2 Chadapa do Guimarães NP 27/7
136. Fork-tailed Palm-Swift *Tachornis squamata*
4 Chadapa do Guimarães NP 27/7
137. Saw-Billed Hermit *Ramphodon naevius*
10 Ubatuba 29 and 30/7
138. Planalto Hermit *Phaetornis pretrei*
4 Itatiaia NP 16/7, singles seen and heard all days in Chapada **Sawbilled Hermit**
139. Scale-throated Hermit *Phaethornis eurynome*
4 Itatiaia NP 15/7 and 1 there 16/7
140. Dusky-throated Hermit *Phaethornis eurynome*
1 Itatiaia NP 15/7.
141. Swallow-tailed Hummingbird *Campylopterus macrourus*
2 Itatiaia NP 16/7, up to 4/day in Ubatuba 28-30/7.
142. Sombre Hummingbird *Campylopterus cirrochloris*
1 Ubatuba 29/7, 3 Ubatuba 30/7 Both seen at Jonas' Place
143. Black Jacobin *Florisuga fuscus*
1 male at Hotel Simons garden 15/7
144. Plovercrest *Stephanoxis lalandi*
1 ♂, 1 ♀ Itatiaia NP 16/7
145. Frilled Coquette *Lophornis magnificus*
1 ♂ in a treetop at river road Chadapa do Guimarães NP 28/7.
146. Festive Coquette *Lophornis chalybeus*
About 10 at Jonas Place in Ubatuba 29/7 and 15 there 30/7. All giving marvellous views!
147. White-vented Violetear *Colibri serrirostris*
1 Chadapa do Guimarães NP 27/7, 2 there 28/7
148. Glittering-bellied Emerald *Chlorostilbon aureoventris*
1 Itatiaia NP 15/7, 2 Fz Barra Mansa 18/7, 5 there 19/7 and 3 Fz Baia das Pedras 20/7
149. Violet-capped Woodnymph *Thalurania glaucopis*
About 30 Itatiaia NP 15/7 and 25 Ubatuba 29 and 30/7

150. Fork-tailed Woodnymph *Thalurania furcata*
2 Chadapa do Guimarães NP 26/7, 6 there 28/7

151. Rufous-throated Sapphire *Hylocharis sapphirina*
4 Ubatuba 28/7

152. Gilded Sapphire *Hylocharis chrysura*
1 18/7, 1 19/7

Hummers Fight Club

153. Glittering-throated Emerald *Polyerata fimbriata*
1 Chadapa do Guimarães NP 26/7, 4 Ubatuba 29/7 and 2 there 30/7

154. White-throated Hummingbird *Leucochloris albicollis*
5 Itatiaia NP 15/7

155. Versicolored Emerald *Agyrtria versicolor*
2 Itatiaia NP 15/7

156. Brazilian Ruby *Clytolaema rubricauda*
5 Itatiaia 15/7, 4 there 16/7, 3 Ubatuba 29/7 and 5 there 30/7. tough hummer this one.

157. Black-eared Fairy *Heliotheryx aurita*
1 ♂ 15/7

158. Horned Sungem *Heliactin bilopha*
1 ♀ Chadapa do Guimarães NP 26/7

159. Long-billed Starthroat *Heliomaster longirostris*
1 Chadapa do Guimarães NP 27/7, 2 there 28/7

The beautiful Black-eared Fairy

160. Blue-tufted Starthroat *Heliomaster furcifer*
1 ♂ Chadapa do Guimarães NP 28/7

161. Amethyst Woodstar *Calliphlox amethystina*
1 ♂♀ Itatiaia NP 15/7, 1 ♂ Chadapa do Guimarães NP 25/7

162. White-tailed Trogon *Trogon viridis*
1 pair Ubatuba 29/7

163. Black-throated Trogon *Trogon rufus*
1 pair of the yellowbellied race *sulphureus* seen in Itatiaia NP 15/7

164. Blue-crowned Trogon *Trogon curucui*
1 pair 19/7, 1 ♂ 23/7, heard 26/7 and 2 seen Chadapa do Guimarães NP 28/7

165. Surucua Trogon *Trogon surrucura*
1 pair 15/7

166. Ringed Kingfisher *Ceryle torquata*
Singles most days in Pantanal and 114 ex! 29/7
167. Amazon Kingfisher *Chloroceryle amazona*
Up to 10 all days in Pantanal
168. Green Kingfisher *Chloroceryle americana*
Fairly common 17-19/7
169. Green-and-Rufous Kingfisher *Chloroceryle inda*
1 seen from oneboat at Fz Barra Mansa 18/7
170. American Pygmy Kingfisher *Chloroceryle aenea*
1 Fz San Francisco 17/7, 2 there 18/7
171. Rufous-capped Motmot *Baryphthengus ruficapillus*
2 heard 15/7, 3 seen and heard 30/7
172. Blue-crowned Motmot *Momotus momota*
Only heard 26 and 27/7, 1 seen 28/7 in Chadapa do Guimarães NP
173. Rufous-tailed Jacamar *Galbula ruficauda*
1 Fz San Francisco 17/7, 3 Fz Barra Mansa 19/7, 1 Fz Barra Mansa 20/7, only heard 26 and 28/7 Chadapa do Guimarães NP.
174. White-eared Puffbird *Nystalus chacuru*
4 giving very nice views 16/7, singles most days in Chapada
175. Spot-backed Puffbird *Nystalus maculatus*
4 seen in beautiful evening light Fz Baia das Pedras 21/7, only heard 26/7
176. Black-fronted Nunbird *Monasa nigrifrons*
1 seen well Chadapa do Guimarães NP 26/7, only heard there 27 and 28/7
177. Swallow-wing (Puffbird) *Chelidoptera tenebrosa*
About 10 Chadapa do Guimarães NP 26/7
178. Chestnut-eared Araçari *Pteroglossus castanotis*
Singles all days in Chapada
179. Lettered Araçari *Pteroglossus inscriptus*
1 Jamaca River Vale road 26/7, 2 Vale de Bençao 28/7
180. Channel-billed Toucan *Ramphastos vitellinus culminatus*: "Yellow-ridged Toucan" Singles all days in Chapada

Chestnut-eared Araçari

181. Toco Toucan *Ramphastos toco*
Up to 20 all days in Pantanal, 2 Chadapa do Guimarães NP 26/7
182. Red-breasted Toucan *Ramphastos dicolorus*
1 seen briefly in the morning Itatiaia NP 15/7
183. White-barred Piculet *Picumnus cirratus*
6 Itatiaia NP 15/7, only heard 29/7 and 1 seen Ubatuba 30/7
184. White-wedged Piculet *Picumnus albosquamatus*
2 inside the forest Chadapa do Guimarães NP 27/7, 3 there 28/7
185. White Woodpecker *Melanerpes candidus*

Only heard Itatiaia NP 15/7 and 3 Ubatuba 29/7
210. Bertoni's Antbird *Drymophila rubricollis*
1 pair Itatiaia NP 15/7

Creambacked Woodpecker

211. Rufous-tailed Antbird *Drymophila genei*
1 seen and 1 heard Itatiaia NP 16/7
212. Scaled Antbird *Drymophila squamata*
1 heard Ubatuba 29/7.
213. Ochre-rumped Antbird *Drymophila ochropyga*
1 ♂ Itatiaia NP 15/7
214. Streak-capped Antwren *Terenura maculata*
3 Itatiaia NP 15/7, 4 Ubatuba 29/7
215. Mato Grosso Antbird *Cercomacra melanaria*
1 pair seen Fz Barra Mansa 19/7
216. White-backed Fire-Eye *Pyriglena leuconota*
1 pair Chadapa do Guimarães NP 26 and 28/7
217. White-shouldered Fire-eye *Pyriglena leucoptera*
1 pair Itatiaia NP 15/7
218. White-bibbed Antbird *Myrmeciza loricata*
1 ♂ Itatiaia NP 15/7
219. Rufous-capped Antthrush *Formicarius colma*
1 showing well in Ubatuba 29/7
220. Such's Antthrush *Chamaeza meruloides*
1 seen and 1 heard Itatiaia NP 15/7
221. Rufous Gnateater *Conopophaga lineata*
2 giving good views Itatiaia NP 15/7, heard there 16/7
222. Black-cheeked Gnateater *Conopophaga melanops*
1 giving very good views Itatiaia NP 15/7, heard Ubatuba 29/7
223. Tail-banded (Wing-banded) Hornero *Furnarius figulus*
2 seen close to a stream Itatiaia NP 16/7
224. Rufous Hornero *Furnarius rufus*
5 Itatiaia NP 16/7, Common in Pantanal, a few in Chadapa do Guimarães NP.
225. Araucaria Tit-Spinetail *Leptasthenura setaria*
2 singing and showing up well of this enigmatic endemic in Itatiaia NP 16/7
226. Chicli Spinetail *Synallaxis spixi*
1 Itatiaia NP 16/7
227. Rufous-capped Spinetail *Synallaxis ruficapilla*
Heard only in Itatiaia NP 16/7

228. Pale-breasted Spinetail *Synallaxis albescens*
1 Fz Barra Mansa 18/7, 1 Chadapa do Guimarães NP 27/7 and 1 there 28/7
229. White-lored Spinetail *Synallaxis albilora*
2 Fz Baia das Pedras 21/7
230. Yellow-chinned Spinetail *Certhiaxis cinnamomea*
Singles in Pantanal 17 - 20/7
231. Itatiaia Thistletail *Oreophylax moreirae*
5 at high altitude Itatiaia NP 16/7
232. Pallid Spinetail *Cranioleuca pallida*
2 Itatiaia NP 15/7, 1 there 16/7
233. Rusty-backed Spinetail *Cranioleuca vulpina*
4 Fz Barra Mansa along riparian areas at Rio Negro 19/7
234. Gray-crested Cacholote *Pseudosseisura unirufa*
Singles most days in Pantanal
235. Black-capped Foliage-gleaner *Philydor atricapilla*
1-2 heard in Ubatuba 29/7
236. Buff-fronted Foliage-Gleaner *Philydor rufus*
5 Itatiaia NP 15/7
237. White-collared Foliage-gleaner *Anabazenops fuscus*
1 Itatiaia NP 15/7
238. White-eyed Foliage-gleaner *Automolus leucophthalmus*
1 heard and seen briefly in the rain in Ubatuba 29/7
239. Plain Xenops *Xenops minutus*
2 Ubatuba 30/7
240. Streaked Xenops *Xenops rutilans*
2 of this tiny and fastmoving birds seen and heard in Ubatuba 15/7
241. Rufous-breasted Leaf-tosser *Sclerurus scansor*
1 heard only Ubatuba 29/7
242. Sharp-tailed Streamcreeper *Lochmias nematura*
1 showing up perfectly Itatiaia NP 16/7, 1 heard Chadapa do Guimarães NP 26/7
243. Thrush-like Woodcreeper *Dendrocincla turdina*
1 seen Ubatuba 30/7
244. Olivaceous Woodcreeper *Sittasomus griseicapillus*
5 Itatiaia NP 15/7

245. Great Rufous Woodcreeper *Xiphocolaptes major*
2 Fz Baia das Pedras 20-22/7
246. White-throated Woodcreeper *Xiphocolaptes albicollis*
1 Ubatuba 30/7
247. Planalto Woodcreeper *Dendrocolaptes platyrostris*
2 Itatiaia NP 15/7
248. Buff-throated Woodcreeper *Xiphorhynchus guttatus*
1 Chadapa do Guimarães NP 28/7
249. Narrow-billed Woodcreeper *Lepidocolaptes angustirostris*
Singles most days in Pantanal
250. Scalloped Woodcreeper *Lepidocolaptes falcinellus*
4 Itatiaia NP 15/7
251. Lesser Woodcreeper *Lepidocolaptes fuscus*
Heard Ubatuba 29 and 30/7
252. Black-billed Scythebill *Campylorhamphus falcularius*
1 heard only Itatiaia NP 15/7
253. Red-billed Scythebill *Campylorhamphus trochilirostris*
1 Fz San Francisco 18/7, 2 Fz Baia das Pedras 21 and 22/7 2 Fz Mangabal 23/7
254. Serra do Mar Tyrannulet *Phylloscartes difficilis*
2 Itatiaia NP 16/7
255. Mottle-cheeked Tyrannulet *Phylloscartes ventralis*
4 Itatiaia NP 16/7
256. Planalto Tyrannulet *Phyllomyias fasciatus*
2 Itatiaia NP 15/7
257. Rough-legged Tyrannulet *Phyllomyias burmeisteri*
1 Itatiaia NP 15/7
258. Greenish Tyrannulet *Phyllomyias virescens*
1 Itatiaia NP 16/7
259. Gray-capped Tyrannulet *Phyllomyias griseocapilla*
1 seen Itatiaia NP 15/7, heard only there 16/7
260. Southern Beardless Tyrannulet *Camptostoma obsoletum*
1 Itatiaia NP 15/7, 1 Fz Barra Mansa 18/7, heard in Chadapa 26 and 28/7
261. Campos Flycatcher *Suiriri affinis*
2 seen together with Chapada Flycatchers in Chadapa do Guimarães NP 26/7

262. Chapada Flycatcher *Suiriri islerorum*
2 Displaying and giving excellent view in
Chadapa do Guimarães NP 26/7, 4 27/7
263. Forest Elaenia *Myiopagis gaimardii*
Heard 26 and 27/7 in Chadapa do
Guimarães NP , 3 seen there 28/7
264. Yellow-bellied Elaenia *Elaenia flavogaster*
3 Itatiaia NP 16/7, 1 Chadapa do Guimarães
NP 26 and 28/7 and heard all days there
265. Small-billed Elaenia *Elaenia parvirostris*
1 Chadapa do Guimarães NP 26/7
266. Plain-crested Elaenia *Elaenia cristata*
Heard Chadapa do Guimarães NP 26/7, 2
seen there 27/7
267. White-crested Tyrannulet *Serpophaga subcristata*
2 Itatiaia NP 16/7
268. Plain Tyrannulet *Inezia inornata*
1 Fz Barra Mansa 19/7
269. Tawny-crowned Pygmy-Tyrant *Euscarthmus meloryphus*
1 Chadapa do Guimarães NP 28/7
270. Rufous-sided Pygmy-Tyrant *Euscarthmus rufomarginatus*
2 Chadapa do Guimarães NP 27/7, heard there 28/7
271. Gray-hooded Flycatcher *Mionectes rufiventris*
1 Itatiaia NP 15/7
272. Sepia-capped Flycatcher *Leptopogon amaurocephalus*
4 Itatiaia NP 15/7, 2 Chadapa do Guimarães NP 26/7
273. Yellow Tyrannulet *Capsiempis flaveola*
4 Itatiaia NP 15/7
274. Southern Antpipit *Corythopis delalandi*
1 Itatiaia NP showing up nicely 15/7, 1 this one also very cooperative in Chadapa 27/7
275. Eared Pygmy-Tyrant *Myiornis auricularis*
5 Itatiaia NP 15/7
276. Eye-Ringed Tody-Tyrant *Hemitriccus orbitatus*
1 Ubatuba 29/7

Chapada Flycatcher

277. Drab-breasted Bamboo-Tyrant *Hemitriccus diops*
1 of this skulking beauty seen well in Itatiaia NP 15/7
278. Brown-breasted Bamboo-Tyrant *Hemitriccus obsoletus*
1 Heard Itatiaia NP 16/7
279. Ochre-faced Tody-Flycatcher *Todirostrum plumbeiceps*
2 Itatiaia NP 15/7, 1+heard there 16/7
280. Yellow-lored Tody-Flycatcher *Todirostrum poliocephalum*
2 Itatiaia NP 15/7, 4 Ubatuba 29/7
281. Rusty-fronted Tody-Flycatcher *Todirostrum latirostre*
1 Fz Mangabal 23/7, 1 Chadapa do Guimarães NP 28/7
282. Large-headed Flatbill *Ramphotricon megacephala*
1 seen and 1 more heard Itatiaia NP 15/7
283. Yellow-olive Flycatcher *Tolmomyias sulphurescens*
1 Itatiaia NP 15/7, 1 Ubatuba 29/7
284. White-throated Spadebill *Platyrinchus mystaceus*
1 Itatiaia NP 15/7
285. Bran-colored Flycatcher *Myiophobus fasciatus*
1 Itatiaia NP 16/7, 1 Fz Baia das Pedras 22/7, 2 Chadapa do Guimarães NP 28/7
286. Whiskered Flycatcher *Myiobius barbatus*
1 Ubatuba 29/7
287. Cliff Flycatcher *Hirundinea ferruginea*
Fairly common Itatiaia NP 15/7, 1 Itatiaia NP 16/7 and 2 Ubatuba 29/7
288. Euler's Flycatcher *Lathrotriccus euleri*
Heard only Itatiaia NP 15 /7
289. Tropical Pewee *Contopus cinereus*
1 Itatiaia NP 15/7, 1 Ubatuba 29/7. Obviously not present in July.
290. Vermillion Flycatcher *Pyrocephalus rubinus*
Up to 10 most days in Pantanal
291. White-rumped Monjita *Xolmis velata*
Locally common in Panatanal, maxfigures 20/day
292. White Monjita *Xolmis irupero*
2 Fz Barra Mansa 18/7
293. Blue-billed Black-Tyrant *Knipolegus cyanirostris*
1 Itatiaia NP 15/7, 3 ♂ there 16/7

294. Velvety Black-Tyrant *Knipolegus nigerrimus*
3 Itatiaia NP 15/7, 2 there 16/7
295. Crested Black-Tyrant *Knipolegus lophotes*
4 at the parkinglot at the Ravine Chadapa do Guimarães NP 25/7
296. Spectacled Tyrant *Hymenops perspicillata*
1 pair during transport between Fz Barra Mansa and Fz Baia das Pedras 20/7
297. Masked Water-Tyrant *Fluvicola nengeta*
1 Itatiaia NP 15/7, 10 there 16/7
298. Black-backed Water-Tyrant *Fluvicola albiventer*
Singles 17 - 20/7
299. White-headed Marsh-Tyrant *Arundinicola leucocephala*
1 Fz San Francisco 18/7, 3 Fz Mangabal 23/7
300. Long-tailed Tyrant *Colonia colonus*
4 at hotel Simon 15/7, 1 Ubatuba 29/7
301. Streamer-tailed Tyrant *Gubernetes yetapa*
4 displaying and giving excellent views Itatiaia Farmlands 16/7
302. Yellow-browed Tyrant *Satrapa icterophrys*
1 Fz Barra Mansa 19/7
303. Cattle Tyrant *Machetornis rixosus*
Fairly common in suitable habitat.
304. Shear-tailed Gray Tyrant *Muscipipra vetula*
1 Itatiaia NP 15/7
305. Rufous Casiornis *Casiornis rufa*
2 Fz Baia das Pedras 21/7, 1 there 23/7
306. Sirystes *Sirystes sibilator*
4 Itatiaia NP 15/7
307. Short-crested Flycatcher *Myiarchus ferox*
4 Itatiaia NP 15/7, only heard 26/7
308. Brown-crested Flycatcher *Myiarchus tyrannulus*
Heard 26/7, 2 27/7 in Chadapa do Guimarães NP
309. Swainson's Flycatcher *Myiarchus swainsoni*
Singles most days in Pantanal
310. Great Kiskadee *Pitangus sulphuratus*
Common.

Streamertailed Tyrant

311. Boat-billed Flycatcher *Megarynchus pitangua*
2 Ubatuba 29/7
312. Rusty-margined Flycatcher *Myiozetetes cayanensis*
3 Chadapa do Guimarães NP 26/7
313. Social Flycatcher *Myiozetetes similis*
1 Itatiaia NP 15/7, up to 10 most days in Pantanal, 4 Ubatuba 29/7
314. Streaked Flycatcher *Myiodynastes maculatus*
2 during transport Fz Barra Mansa and-Baia das Pedras 20/7, 1 everyday in Chapada
315. Piratic Flycatcher *Legatus leucophaeus*
1 Fz San Francisco 18 and 19/7
316. Tropical Kingbird *Tyrannus melancholicus*
Up to 10 most days in Pantanal, 1 29/7
317. Chestnut-crowned Becard *Pachyramphus castaneus*
3 Itatiaia NP 15/7, 1 Itatiaia NP 16/7
318. Black-capped Becard *Pachyramphus marginatus*
1 Ubatuba 29/7
319. Slaty Bristlefront *Merulaxis ater*
1 Ubatuba 29/7
320. Mouse-colored Tapaculo *Scytalopus speluncae*
1 Itatiaia NP 16/7
321. Masked Tityra *Tityra semifasciata*
2 Chadapa do Guimarães NP 25/7, 1 there 26/7 and just heard 28/7
322. Black-crowned Tityra *Tityra inquisitor*
1 Ubatuba 29/7
323. Band-tailed Manakin *Pipra fasciicauda*
1 pair Chadapa do Guimarães NP 26/7, 2♂, 1 ♀ there 27/7
324. Helmeted Manakin *Antilophia galeata*
1 ♂ Chadapa do Guimarães NP 26 and 27/7
325. Blue Manakin *Chiroxiphia caudata* (HBW 2000) (=Swallow-tailed Manakin, Sibley&Monroe 2001)
1 Itatiaia NP 15 and 16/7. One of the best birds of the whole trip! Beautiful views!
326. Pin-tailed Manakin *Ilicura militaris*
1 Ubatuba 30/7. Last bird and a good one as well!!
327. White-bearded Manakin *Manacus manacus*
2 Ubatuba 29/7

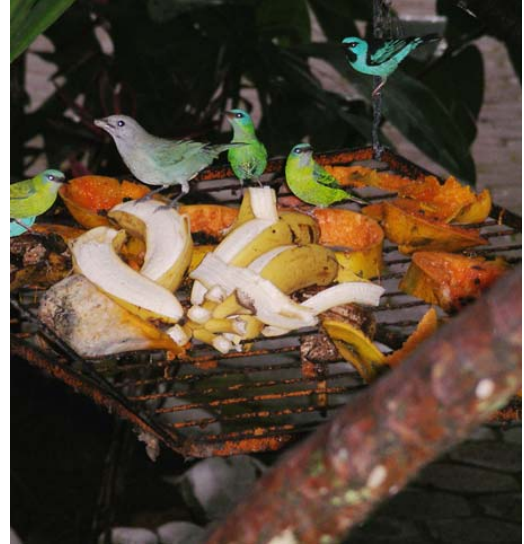

328. Fiery-capped Manakin *Machaeropterus pyrocephalus*
 Heard but unfortunately not seen, Chadapa do Guimarães NP 27 and 28/7
329. Serra do Mar Tyrant-Manakin *Neopelma chrysolophum*
 1 Itatiaia NP 15/7
330. Greenish Schiffornis *Schiffornis virescens*
 1 Itatiaia NP 15/7
331. Black-and-gold Cotinga *Tijuca atra*
 1 seen well after a strenuous bushwhacking, 1 more heard Itatiaia NP 16/7
332. Buff-throated Purpletuft *Iodopleura pipra*
 1 pair cooperative birds in Ubatuba 29/7
333. Bare-throated Bellbird *Procnias nudicollis*
 1 heard Ubatuba 29/7
334. White-winged Swallow *Tachycineta albiventer*
 2 Fz San Francisco 17/7, about 20 there 18/7 and 1 Rio Negro 19/7. Always associated with water
335. Brown-chested Martin *Phaeoprogne tapera*
 1 Fz Barra Mansa 18/7
336. Gray-breasted Martin *Progne chalybea*
 4 Itatiaia NP 16/7, about 20 Fz Barra Mansa 18 and 19/7, about 10 Ubatuba 29/7
337. Blue-and-white Swallow *Notiochelidon cyanoleuca*
 Common in the east 15, 16 and 29/7
338. White-thighed Swallow *Neochelidon tibialis*
 2 Ubatuba 29/7
339. Southern Rough-winged Swallow *Stelgidopteryx ruficollis*
 1 Itatiaia NP 16/7, Common along rivers in Pantanal, Fairly common in Chadapa do Guimarães NP and in Ubatuba 29/7
340. Yellowish Pipit *Anthus lutescens*
 Locally common at marsh edges in Pantanal 20-23/7
341. Purplish Jay *Cyanocorax cyanomelas*
 Up to about 15/day in Pantanal, 2 seen + heard Chadapa do Guimarães 26 and 28/7,
342. Curl-crested Jay *Cyanocorax cristatellus*
 Up to 10 all days in Chapada
343. Plush-crested Jay *Cyanocorax chrysops*
 5-10/day Panatanal 18,19,21 and 24/7

344. Thrush-like Wren *Campylorhynchus turdinus*
 Heard 18 - 21/7, 2 seen 22/7, about 20 23/7, A few daily at Chadapa 25-28/7
345. Black-capped Donacobius *Donacobius atricapillus*
 4 Fz San Francisco 17/7, about 20 there 18/7
346. Long-billed Wren *Thryothorus longirostris*
 2 Ubatuba 30/7
347. Moustached Wren *Thryothorus genibarbis*
 2 Chadapa do Guimarães NP 26, 27 and 28/7
348. Buff-breasted Wren *Thryothorus leucotis*
 3 Fz Barra Mansa 19/7
349. Southern House Wren *Troglodytes musculus*
 2 Itatiaia NP 15 and 16/7, heard 19/7 and 2 Chadapa do Guimarães NP 25/7
350. Long-billed Gnatwren *Ramphocaenus melanurus*
 1 Ubatuba 30/7
351. Yellow-legged Thrush *Platycichla flavipes*
 5 Itatiaia NP 15/7
352. Rufous-bellied Thrush *Turdus rufiventris*
 Seen throughout in low numbers.
353. Pale-breasted Thrush *Turdus leucomelas*
 1 Itatiaia NP 16/7, Several seen all days in Chapada
354. Creamy-bellied Thrush *Turdus amaurochalinus*
 2 Itatiaia NP 15/7, 2 Fz San Francisco 18/7 and 1 along the road 21/7
355. White-necked Thrush *Turdus albicollis*
 1 Itatiaia NP 15 and 16/7, 3 Ubatuba 29/7
356. Chalk-browed Mockingbird *Mimus saturninus*
 4 Itatiaia NP 16/7, Common Pantanal and Chapada
357. Rufous-browed Peppershrike *Cyclarhis gujanensis*
cearensis: A few heard and 2 seen iat 15 and 16, 2 Fz Baia das Pedras 21/7
ocrocephala: heard 26 - 28/7 Chapada do Guimarães.
358. Chivi (Red-eyed) Vireo *Vireo chivi*
 3 Chadapa do Guimarães NP 28/7
359. Hooded Siskin *Carduelis magellanica*
 1 ♂♀ at the farmlands in Itatiaia NP 16/7

360. Rufous-crowned Greenlet *Hylophilus poicilotis*
1 Itatiaia NP 15/7, 2 there 16/7
361. Masked Yellowthroat *Geothlypis aequinoctialis*
2 Itatiaia NP 16/7, 1 Fz San Francisco 17/7 and 3 there 18/7
362. White-bellied Warbler *Basileuterus hypoleucus*
3 Chadapa do Guimarães NP 26/7, 1 there 28/7
363. Golden-crowned Warbler *Basileuterus culicivorus*
About 10 Itatiaia NP 15/7 and about 20 there 16/7
364. White-rimmed Warbler *Basileuterus leucoblepharus*
2 Itatiaia NP 15/7, 1 there 16/7
365. Neotropical River Warbler *Phaeothlypis rivularis*
2 Ubatuba 30/7
366. Bananaquit *Coereba flaveola*
clorophylla: Common Itatiaia NP and Ubatuba
367. Cinnamon Tanager *Schistochlamys ruficapillus*
1 of this Cerrado-specialist in Chadapa do Guimarães NP 28/7
368. Black-faced Tanager *Schistochlamys melanopsis*
1 27 and 28/7 at Chadapa do Guimarães NP
369. White-banded Tanager *Neothraupis fasciata*
3-8/day in Chadapa do Guimarães NP
370. White-rumped Tanager *Cypsnagra hirundinacea*
1 Fz Baia das Pedras 22/7, singles most days in Chapada
371. Magpie Tanager *Cissopis leveriana*
4 in the garden at Hotel Simon 15/7
372. Rufous-headed Tanager *Hemithraupis ruficapilla*
2 Itatiaia NP 15/7
373. Olive-green Tanager *Orthogonys chloricterus*
Fairly common Itatiaia NP and Ubatuba 15 resp, 29/7
374. Hooded Tanager *Nemosia pileata*
2 Chadapa do Guimarães NP 28/7
375. Gray-headed Tanager *Eucometis penicillata*
1 Chadapa do Guimarães NP 26/7
376. Flame-crested Tanager *Tachyphonus cristatus*
5 Ubatuba 29/7

377. White-shouldered Tanager *Tachyphonus luctuosus*
1 ♀ Chadapa do Guimarães NP 26/7
378. White-lined Tanager *Tachyphonus rufus*
1 ♂ Chadapa do Guimarães NP 26 and 28/7
379. Ruby-crowned Tanager *Tachyphonus coronatus*
4 Itatiaia NP 15/7, 2 Ubatuba 29-30/7
380. Black-goggled Tanager *Trichothraupis melanops*
6 Itatiaia NP 15/7, 2 Ubatuba 29/7
381. Red-crowned Ant-Tanager *Habia rubica*
1 Ubatuba 30/7
382. Lowland Hepatic Tanager *Piranga flava saira*
1 ♂ 1 ♀ Chadapa do Guimarães NP 25/7
383. Brazilian Tanager *Ramphocelus bresilius*
2 Itatiaia NP 16/7, 5-15 Ubatuba 29-30/7
384. Silver-beaked Tanager *Ramphocelus carbo*
Common Chadapa do Guimarães NP 26-28/7.
385. Golden-chevroned Tanager *Thraupis ornata*
Common Itatiaia NP 15/7
386. Sayaca Tanager *Thraupis sayaca*
Fairly common every day
387. Palm Tanager *Thraupis palmarum*
2 Fz Barra Mansa 19 and 2 Fz Baia das Pedras 22/7, seen every day in Chapada
388. Diademed Tanager *Stephanophorus diadematus*
1 Itatiaia NP 15/7 50 at the higher ground there 16/7
389. Fawn-breasted Tanager *Pipraeidea melanonota*
2 Itatiaia NP 16/7
390. Purple-throated Euphonia *Euphonia chlorotica*
Heard 27/7, 1 seen 28/7
391. Violaceous Euphonia *Euphonia violacea*
3 pairs Ubatuba 29/7, 1 pair Ubatuba 30/7
392. Thick-billed Euphonia *Euphonia laniirostris*
1 2K ♂ Chadapa do Guimarães NP 26/7, 1 ♀ there 27/7
393. Chestnut-bellied Euphonia *Euphonia pectoralis*
Common Itatiaia NP 15/7, 2 pair Ubatuba 29/7 and 1 pair there 30/7

394. Blue-naped Chlorophonia *Chlorophonia cyanea*
1 ♂ seen +heard Itatiaia NP 15/7
395. Green-headed Tanager *Tangara seledon*
Common Itatiaia NP 15/7, about 50 both days in Ubatuba
396. Brassy-breasted Tanager *Tangara desmaresti*
About 10 both days in Itatiaia
397. Gilt-edged Tanager *Tangara cyanoventris*
About 10 Itatiaia NP 15/7
398. Burnished-buff Tanager *Tangara cayana*
6 Itatiaia NP 15/7, 1 there 16/7
399. Blue Dacnis *Dacnis cayana*
Common Itatiaia NP 15 /7, 1 ♀Chadapa do Guimarães NP 28/7, 30-50/day in Ubatuba
400. Green Honeycreeper *Chlorophanes spiza*
5 Ubatuba 29/7, about 15 there 30/7
401. Chestnut-vented Conebill *Conirostrum speciosum*
3 Chadapa do Guimarães NP 27/7 1 pair there 28/7
402. Swallow Tanager *Tersina viridis*
3 Itatiaia NP 15/7, singles all days in Chapada
403. Rufous-collared Sparrow *Zonotrichia capensis*
Common. *Not* seen in Pantanal nor Chadapa do Guimarães NP. 2 Ubatuba 29/7
404. Uniform Finch *Haplospiza unicolor*
Common in Itatiaia
405. Bay-chested Warbling-Finch *Poospiza thoracica*
About 20 Itatiaia NP 16/7
406. Red-rumped Warbling-Finch *Poospiza lateralis*
About 20 Itatiaia NP at higher altitudes 16/7
407. Grassland Sparrow *Ammodramus humeralis*
Up to 20 most days in Pantanal, 5 Chadapa do Guimarães NP 27/7
408. Saffron Finch *Sicalis flaveola*
2 Itatiaia NP 16/7, 4 Fz Barra Mansa 19/7, 1 pair Fz Mangabal 24/7, 2 Ubatuba 29/7
409. Wedge-tailed Grass-Finch *Emberizoides herbicola*
3 Chadapa do Guimarães NP 25/7

Tanagers at Supper

410. Great Pampa-Finch *Embernagra platensis*
1 ♂ at the camping at the top 16/7
411. Blue-black Grassquit *Volatinia jacarina*
5 Chadapa do Guimarães NP 27/7, 1 Ubatuba 30/7
412. Plumbeous Seedeater *Sporophila plumbea*
Singles most days in Chapada
413. Rusty-collared Seedeater *Sporophila collaris*
1 ♂ en routé Fz Barra Mansa to Fz Baia das Pedras 20/7, 4 Fz Mangabal 23/7
414. Temminck's Seedeater *Sporophila falcirostris*
2 Itatiaia NP 15/7
415. Double-collared Seedeater *Sporophila caerulescens*
1 Itatiaia NP 15/7, +50 there 16/7 and 2 Ubatuba 29/7
416. White-bellied Seedeater *Sporophila leucoptera*
1 pair Itatiaia NP 16/7
417. Coal-crested Finch *Charitospiza eucosma*
1 pair Chadapa do Guimarães NP 26/7, 1 ♂ there 27/7
418. Red-pileated Finch *Coryphospingus cucullatus*
1 pair Fz Baia das Pedras 21/7, 5 Chadapa do Guimarães NP 27/7
419. Red-crested Cardinal *Paroaria coronata*
Singles 17 - 19/7
420. Yellow-billed Cardinal *Paroaria capitata*
Up to 10 most days in Pantanal
421. Buff-throated Saltator *Saltator maximus*
1 Fz Barra Mansa 18/7, 3 Chadapa do Guimarães NP 26/7 and 1 there 28/7
422. Green-winged Saltator *Saltator similis*
1 of this Grayish look-alike some by a few in the group well out of normal bounds in the garden at Fz Baia das Pedras 21 and 22/7. Note that Grayish Saltator could shown greenish wings.
423. Grayish Saltator *Saltator caerulescens*
Common Pantanal 18 - 22/7
424. Black-throated Saltator *Saltator atricollis*
Singles Pantanal and common Chadapa do Guimarães NP 26- 28/7.
425. Thick-billed Saltator *Saltator maxillosus*
4 Itatiaia NP 16/7

426. Crested Oropendola *Psarocolius decumanus*
Singles most days in Pantanal, 2 Chadapa do Guimarães NP 28/7 and 2 there 30/7
427. Golden-winged Cacique *Cacicus chrysopterus*
1 Itatiaia NP 16/7
428. Yellow-rumped Cacique *Cacicus cela*
Singles all days in Chapada
429. Red-rumped Cacique *Cacicus haemorrhous*
Common in the East 15/7, 29/7 and 5 30/7
430. Solitary Black Cacique *Cacicus solitarius*
1 Fz San Francisco 17/7, 1 Fz Mangabal 24/7
431. Epaulet Oriole *Icterus cayanensis*
5 Fz Barra Mansa 17 and 18/7, 4 Fz Mangabal 23/7 and 6 Chadapa do Guimarães 25/7
