Introduction

Peru is a very interesting birding destination. With almost 1900 species observed in the country it is one of the most bird rich countries in the world only surpassed by Colombia in diversity. Peru also has a little more than 110 endemics. Peru is a very large country roughly 3 times the size of Sweden. With such a large country and only a limited time of 4 weeks our choice was to concentrate on northwest Peru.

We contacted Boris Herrera, having had him as a guide on our 2008 Ecuador trip we were confident that he would do a great job guiding us in northern Peru. In hindsight it was definitely a wise choice. Boris is not only very knowledgeable about the birds he is also a very nice and pleasant person to bird with. If you want to contact Boris you find his contact details on www.endemicbirds.com

The main objective was as usual to see as many species of birds as possible and in particular endemics. We had a few target species of course and two of them were Marvellous Spatuletail and the charismatic Long-whiskered Owlet. We also wanted to include a pelagic trip in the itinerary. Boris came up with the itinerary below. The itinerary largely follows the classical northern Peru birding route. We recorded 713 species of birds during the trip, including 39 endemics. We also saw 14 species of mammals, a few amphibians and reptiles and 100's of butterflies.

Most of the photos in the report were taken by Janis. You can find more of his photos from the trip on <http://www.pbase.com/tarsiger/>

Front page: Great-billed Hermit *Phaethornis malaris*

Golden-tailed Sapphire *Chrysuronia oenone*

Itinerary

Day	Date	Places visited
0	2012-12-21	International flight
1	2012-12-22	Pelagic Mancora
2	2012-12-23	Pelagic Mancora – Paita – Piura
3	2012-12-24	Piura – Olmos, Limon de Porculla
4	2012-12-25	Quebrada Frejolillo
5	2012-12-26	Abra Porculla
6	2012-12-27	Bosque historico de Pomac – Pimentel
7	2012-12-28	Santa Rosa fields – Puerto Etén
8	2012-12-29	Rio Chonta – San Marcos
9	2012-12-30	La Encañada – Celendin
10	2012-12-31	Celendin – Balsas (west slope Marañon valley)
11	2013-01-01	Balsas – Abra Barro Negro – Leymebamba
12	2013-01-02	Leymebamba – Pedro Ruiz – Jaén
13	2013-01-03	Jaén
14	2013-01-04	Chirinos
15	2013-01-05	Jaén – Pedro Ruiz – ECOAN – Pomacochas
16	2013-01-06	San Lorenzo – Yambrasbamba
17	2013-01-07	Yambrasbamba – La Florida
18	2013-01-08	Abra Patricia
19	2013-01-09	Abra Patricia
20	2013-01-10	Abra Patricia – Rioja
21	2013-01-11	Afluentes
22	2013-01-12	Rio Romero
23	2013-01-13	Moyobamba
24	2013-01-14	Moyobamba – Yurimaguas (Tunnel) Road – Tarapoto
25	2013-01-15	Tarapoto – Yurimaguas Road
26	2013-01-16	Juan Guerra – Pumarinri
27	2013-01-17	Chasuta
28	2013-01-18	Pumarinri – Quebrada Upaquihoa
29	2013-01-19	International flight

Numbers in figure on next page indicate the day number in the list above. [Link](#) to map on Google with all places marked.

Site descriptions

Below you will find brief descriptions of the major birding sites that we visited. Included for each site are also notes on birds observed (and in the rare case birds that should have been seen ;-). In brackets after the site name is the region in Peru.

Pelagic Máncora (Piura)

Máncora is a small city in northern Peru which means it is in the northern part of the Humboldt current and does not get as many sub Antarctic seabirds as southern Peru. The warmer water in the north does however attract birds like Waved Albatross and Galapagos Petrel. Other birds seen included Pink-footed Shearwater, Nazca Booby and Sabine's Gull. We also saw about 10 unidentified whales and a Green Sea Turtle. We had two pelagic trips on two consecutive days. The original plan was to have the second day as backup.

Unfortunately Anders missed this part of the trip due to a delayed flight. Instead he spent a day in Amsterdam making Boris envious with observations of e.g. Mute Swan and Eurasian Magpie.

Short-beaked Common Dolphin *Delphinus delphis*

Pink-footed Shearwater *Puffinus creatopus*

Waved Albatross *Phoebastria irrorata*

We stayed about 15 km south of Máncora in a small village called Organos. A few kilometers north along the road there was a good birding spot just where a small stream crosses the road. To the cagrín of Anders a Jabiru was seen here. Well out of its normal range. Other birds along the road were Coastal Miner (endemic), Parrot-billed Seedeater and Short-tailed Field Tyrant.

Jabiru *Jabiru mycteria*

Coastal Miner *Geositta peruviana*

Quebrada Frejolillo (Piura)

Quebrada Frejolillo near Limon is the(?) best place to see White-winged Guan in the wild. We spent half a day here and saw 4 guans. The ravine (quebrada) and the road leading to it also holds a number of other hard to find species like Pale-browed Tinamou, Red-masked Parakeet (only seen here), Peruvian Screech-Owl, Tumbes Hummingbird, Elegant Crescentchest, Grey-breasted Flycatcher, White-headed Brush Finch and the endemic Tumbes Tyrant.

Tumbes Tyrant *Tumbezia salvini*

Tumbes Hummingbird *Leucippus baeri*

White-winged Guan *Penelope albipennis*

Limón de Porculla (Piura)

The road to Jaén from Olmos goes over the pass Abra Porculla. We birded a side track near the town of Limón de Porculla which is at about 1600 m elevation. This is a good place for some high altitude tumbesian endemics even though the habitat is a bit degraded. Some of the species seen include White-winged and Bay-crowned Brush Finch, Tumbesian Tyrannulet, Piura Chat-Tyrant (endemic), Line-cheeked Spinetail, Chapman's Antshrike, Purple-collared Woodstar and Grey-chinned Hermit (ssp. *porcullae*), Pallid Dove (only here) and Chestnut-crowned Antpitta.

While in this area we stayed at El Remanzo lodge in Olmos. Stellan managed to see his bird no. 3000 a very beautiful Plumbeous-backed Thrush. This was of course celebrated with sparkling wine!

Tumbesian Tyrannulet *Phaeomyias tumbesana*

White-winged Brush Finch *Atlapetes leucopterus*

Celebrating Stellan's tick no. 3000 a Plumbeous-backed Thrush at Quebrada Frejolillo

Bosque de Pomac (Lambayeque)

Although mainly a protected historical site (Batan Grande) [Santuario Historico Bosque de Pomac](#) also protects some tropical dry forest. Situated about 30 km north of Chiclayo it protects about 5900 ha of fairly well preserved forest. The main target birds here are Peruvian Plantcutter (endemic), Rufous

Flycatcher (endemic) and Tumbes Swallow of which we saw all. There is also a possibility to see Black-faced Ibis in this area but we missed it.

Rufous Flycatcher *Myiarchus semirufus*

Peruvian Plantcutter *Phytotoma raimondii*

Santa Rosa fields – Puerto Etén (Lambayeque)

Southwards from the town Pimentel is an open landscape with coastal marshes and beaches. This stretch is called Santa Rosa fields. In and around Pimentel we saw 10's of thousands Franklin's Gull. On beaches and over the sea other species like Kelp and Grey-hooded Gull, Peruvian Pelican and Band-tailed (Belcher's) Gull can be found. A few Brown Pelicans were also found with the more common Peruvian Pelican. The marshes and fields hold species like Coastal Miner (endemic), Many-colored Rush Tyrant, Least Seedsnipe, Yellowish Pipit, Wren-like Rushbird and Tawny-throated Dotterel.

Further south in Puerto Etén birding from the pier is recommended. A lot of sea birds can be seen here. Yet further south a breeding colony of Blue-footed and Peruvian Booby and Peruvian Pelican can be found at Punto Etén. Here is also a breeding station for Humboldt Penguin, not tickable unfortunately.

Band-tailed Gull *Larus belcheri*

Many-colored Rush Tyrant *Tachuris rubrigastra*

Blue-footed Booby *Sula nebouxii* and Peruvian Pelican *Pelecanus thagus*

Rio Chonta (Cajamarca)

Not far from Cajamarca is the Rio Chonta valley. This is an easily accessed site for the rare and local Grey-bellied Comet (endemic). We only saw one bird during our morning here. The canyon is also a good place for White-winged Cinclodes and Torrent Tyrannulet. Birding along the stream in the canyon was rewarding and produced species like Black Metaltail (endemic), Giant Hummingbird, Rusty-crowned Tit-Spinetail (endemic), Black-crested Tit-Tyrant, White-browed Chat-Tyrant, Peruvian Sierra Finch and the common (here) Band-tailed Seed eater.

In Cajamarca we stayed at [Hotel Hazienda Yanamarca](#), a very nice hotel a few kilometres south of the city. In the evening we heard Koepcke's Screech-Owl here.

Black-crested Tit-Tyrant *Anairetes nigrocristatus*

Black Metaltail *Metallura phoebe*

Further up-stream in the upper section of the canyon we found birds like Mountain Caracara, Andean Hillstar and Mourning Sierra Finch.

San Marcos (Cajamarca)

About 60 kilometres south of Cajamarca where the road serpentine down towards the small town San Marcos is a ravine on the left side of the road. This is apparently a good site for Great Spinetail

but unfortunately we missed it. We did however have a few good birds like Buff-bridled Inca Finch and White-winged Black Tyrant. Black-necked Woodpecker is also possible here. Along the road from Cajamarca to San Marcos is a small lake called Laguna Suyuscocha. Here we found the only Andean Coot that we saw during our trip and White-tailed Shrike-Tyrant was also present here.

Buff-bridled Inca Finch *Incaspiza laeta*

Cajamarca – Celendín – Balsas (Cajamarca and Amazonas)

We birded a few places along the road. First from Cajamarca to Celendín we stopped at La Encañada. The best birds but certainly not the only ones was Shining Sunbeam, Sword-billed Hummingbird (the only one seen on this trip), Giant Hummingbird, Black-tailed Trainbearer. We also heard (saw?) Rufous Antpitta of the cajamarcae-subspecies. We also saw the endemic Rufous-eared Brush Finch. Band-tailed Sierra Finch and Mountain Caracara were both seen along the road towards Celendín.

Rufous-eared Brush Finch *Atlapetes rufigenis*

Shining Sunbeam *Aglaeactis cupripennis*

From Celendín to Balsas we birded along the road. We stopped at a few places in the morning (closer to Celendín) and then birded our way down to Balsas which is in the Marañón valley. The habitat was progressively drier the closer to Balsas we came. This is because the west slope of the valley sees very little rain. Never the less it produced some nice birds like Bare-faced Ground Dove, Black-necked

Woodpecker (endemic), Grey-winged and Buff-bridled Inca Finch (endemics), Chestnut-backed Thornbird (endemic), Jelski's Chat-Tyrant and Dusky-capped Flycatcher. Close to Balsas 2 Pacific Pygmy Owls showed themselves very nicely.

Balsas (Amazonas)

We spent New Year's Eve and Day in Balsas. As it turned out a very memorable New Year's Eve. We stayed at a very simple establishment, basically walls, roof and a bed. The restaurant was a very simple place yet an extraordinary experience or as expressed by Boris: "Well, it's not even a house". Nevertheless we had a good home cooked dinner from the open fire.

Marañon (Peruvian) Pigeon *Patagioenas oenops*

View of Balsas

The main target in Balsas is the rare (BirdLife estimates a population between 350-1500 individuals) Yellow-faced Parrotlet. Which we all eventually managed to see well. An Andean Gull flew by the river and we also saw a few Marañon Pigeon. Further east towards Abra Barro Negro we stopped and found the Marañon Crescentchest.

Marañon Crescentchest *Melanopareia maranonica*

Abra Barro Negro (Amazonas)

The road from Balsas at about 900 m to the high pass of Abra Barro Negro at 3500 m above sea level is to say the least adventurous. It serpentines its way up the mountain side, the views are breathtaking if you can enjoy them while riding the narrow road with very steep slopes on the side.

We birded a few places along the road but the real reward is when you get to and around the pass. The habitat is humid montane forest. Unfortunately for us it was very foggy when we were here but we still had some good birding. We found birds like the endemics Coppery Metaltail and Russet-mantled Softtail. Other birds included Andean Guan, White-throated Quail-Dove and hummers like Purple-throated Sunangel, Glowing Puffleg and some of us also saw a Coppery-naped Puffleg (endemic).

Russet-mantled Softtail *Thripophaga berlepschi*

Andean Guan *Penelope montagnii*

Leymebamba - Jaén

Along the road from Leymebamba to Pedro Ruiz we stopped at a couple of fields with orange flowers. Both places had hundreds of hummingbirds. Species included White-bellied and Spot-throated (endemic) Hummingbird, Little and Spot-throated Woodstar and the very common Sparkling Violetear.

Spot-throated Hummingbird *Leucippus taczanowskii*

Little Woodstar *Chaetocercus bombus*

Along the road from Pedro Ruíz to Jaén we were lucky to see Fasciated Tiger Heron. In a tree were 2 Bat Falcons perched. Fairly close to Pedro Ruiz was an area with seemingly very nice moist forest habitat. This area is well worth exploring. We only stopped for a short time and saw e.g. Blue-black Grosbeak. Closer to Jaén in drier habitat we found Little Inca Finch and Red Pileated Finch.

Jaén (Cajamarca)

In Jaén we stayed at [Prim's Hotel](#). We birded a few different places in the vicinity of Jaén. 3 km north of the city is some rice fields and with some scattered (sewage?) ponds. Here we had birds like Wood Stork, Purple Gallinule, Paint-billed Crake and Spotted Rail.

West of Jaén we birded the so called antenna road. Along the road we saw, after some hard work, 2 Tataupa Tinamou. Here we also had Marañon Slaty-Antshrike, Black-capped Sparrow of the *nigriceps* subspecies, Grey-chinned Hermit and Russet-crowned Crake.

South of the city the habitat is a bit drier. We stopped at about 5 km south and managed to find the endemic Chinchipe Spinetail, Tawny-crowned Pygmy Tyrant and Little Inca Finch.

Paint-billed Crake *Neocrex erythrops*

Wood Stork *Mycteria americana*

About 50 km north of Jaén past the small town of Chirinos you can still find some nice forested areas. E.g. we found White-winged Brush Finch of the distinct subspecies *paynteri*, Red-billed Parrot and Chestnut-bellied Thrush. We also heard Scaled and Plain-backed Antpitta.

On the evening of January 2nd Anders 40th birthday was celebrated with cake (Peruvian style) and Pisco!

White-winged (Paynter's) Brush Finch *Atlapetes leucopterus ssp. paynteri*

Pomacochas and surroundings (Amazonas)

In Pomacochas we stayed three nights at Las Brisas. The town is over-seeing the lake with the same name. At the pier there is a reed which holds Plumbeous Rail and Subtropical Doradito. In the surrounding grassland we found Puna Snipe, Andean Lapwing and Grassland Yellow Finch.

Subtropical Doradito *Pseudocolopteryx acutipennis*

Andean Lapwing *Vanellus resplendens*

Close to Pedro Ruíz we passed a place where there seemed to be a salt lick, 100's of Scarlet-fronted Parakeet and Scaly-naped Amazon were flying around here. Going from Pedro Ruíz to Pomacochas you pass by [Huembo Interpretation centre](#) which is managed by [ECOAN](#). They have hummingbird feeders which holds a lot of hummingbirds. During our short stay we saw 10 species including the very rare and local Marvellous Spatuletail (endemic). Other species seen included Purple-throated Sunangel, Little Woodstar, Violet-fronted Brilliant and White-bellied Hummingbird.

Marvellous Spatuletail *Loddigesia mirabilis*

A few kilometres down towards Pedro Ruíz there is a gravel road to the right leading to San Lorenzo and the so called Rio Chido trail. The walk up here is quite strenuous at least in pouring rain. Despite bad stomach and not feeling well Christian managed to join us on this walk. We had a very rainy morning here but still managed to get some good birds. Pale-billed Antpitta (endemic) called and eventually one showed very well. Other birds seen were Violet-throated Starfrontlet, Yellow-billed Cacique and Drab Hemispingus.

A few kilometres down the road towards Abra Patricia is road going to Yambrasbamba. Around here is still some very good habitat and we had two good visits to the area. The road we followed eventually came to a quarry. Here we heard several Rusty-tinged Antpitta (endemic). We also saw Golden-headed Quetzal, White-capped and Straw-backed Tanager, Black-eared Hemispingus and Emerald-bellied Puffleg. The quarry itself is a white sand area which could be very interesting to explore further.

Abra Patricia (Amazonas)

The [Abra Patricia reserve](#) is owned and managed by ECOAN. We stayed two nights at the owl lodge. The pass is at about 2400 m. This is the now famous place for the enigmatic Long-whiskered Owllet. During our stay here the weather was to say the least bad. Raining almost constantly. When we arrived they immediately showed us Chestnut Antpitta (endemic) that come to feed just close to the road. We also heard Rusty-breasted Antpitta. The first day we birded mainly along the road. We had e.g. Maroon-belted Chat-Tyrant, Inca Flycatcher (endemic), a male Royal Sunangel (endemic), White-collared Jay and Strong-billed Woodcreeper. Around the lodge were a lot of hummingbirds attracted by the feeders. Around the lodge we also saw Tayra and Black Agouti and Rufous-banded Owl was calling in the morning.

Speckled Hummingbird *Adelomyia melanogenys*

Fawn-breasted Brilliant *Heliodoxa rubinoides*

The second day we stayed in the reserve. The morning was spent on "Monkey Trail". Here we had birds like the endemics Lulu's Tody-Flycatcher and Rusty-tinged Antpitta. Around the lodge we had a few Yellow-scarfed Tanager (endemic), Amethyst-throated Sunangel, Andean Tyrant and Rufous-capped Thornbill.

Yellow-scarfed Tanager *Iridosornis reinhardti*

Amethyst-throated Sunangel *Heliangelus amethysticollis*

In the evening we birded down along "Owlet Trail" in hope for the elusive owlet. The weather improved a little bit and our hope increased. Along the trail and waiting for the dark we found Ochre-fronted Antpitta (endemic), White-backed Fire-eye and tawny-bellied Hermit. From dusk we waited for what seemed forever. Suddenly a faint hoot far away. We followed the track without lights and with all the raining the last days it was more of a stream than an actual trail. Eventually we came closer and we could all hear the hoot of the LONG-WHISKERED OWLET. We tried hard but could not locate the bird. Happy, wet and tired we walked back to the lodge and a well-deserved dinner.

Afluentes, Aguas Verde (San Martín)

Continuing east from Abra Patricia it is well worth to stop at any patch with good habitat. One of the known places is called Afluentes at about 1600 m elevation. We birded along the road here and had a lot of good birds e.g. Andean Cock-of-the-rock, Ecuadorian Tyrannulet and Cinnamon Neopipo. The area seemed very good for tanagers and some of the species seen were Huallaga (endemic), Golden-eared, Orange-eared, Bay-headed and Blue-browed Tanager. At a flowering bush along the road we had hummingbirds like Glittering-throated Emerald, Royal Sunangel, Rufous-vented Whitetip and Wedge-billed Hummingbird. Between Abra Patricia and Afluentes we were also very lucky to see Yellow-tailed Woolly Monkey just close to the road. At about 1400 m.a.s. there was a house on the left side of the road (coming from Abra Patricia) with a big gravel field on the right side. If you stop

here you can ask the boy in the house to show you the birds of the area. He was very helpful with his machete. We saw Ash-throated (endemic) and Yellow-breasted Antwren in this area.

Further down (east) we stopped where the road crosses a small river. This place is called Aguas Verdes and here we saw Yellow-crested Tanager and Striolated Puffbird.

Andean Cock-of-the-rock *Rupicola peruvianus*

Huallaga Tanager *Ramphocelus melanogaster*

Royal Sunangel *Heliangelus regalis*

Rioja (San Martín)

In Rioja we stayed at the [Gran Bombonaje Hotel](#). We made a boat trip on Rio Romero a few kilometres north of the town. The boat trip was arranged by Manolo at the Gran Bombonaje Hotel. Along the river we saw monkeys of 4 species; Common Squirrel Monkey, Brown-mantled Tamarin, Venezuelan Red Howler and Silvery Woolly Monkey. The small stream that we travelled with canoe was probably a tributary to Rio Romero. It was sometimes very difficult to pass fallen trees etc. and the birding was a bit difficult. Nevertheless we saw Limpkin, Greater Ani, White-throated Toucan, Pygmy Antwren and Black, Grey and Band-tailed Antbird.

In the surrounding savannah we saw Rufous-sided Crake, Black-banded Crake, Point-tailed Palmcreeper and Black Caracara.

Venezuelan Red Howler *Alouatta seniculus*

Moyobamba (San Martín)

In Moyobamba we stayed at a great place with an excellent view, just south of the city, called Orquidario Wakani. The owner Carlos can be contacted by e-mail: birdinginmoyo@gmail.com

They also had a very good garden for birding, not least a lot of hummingbird feeders. In the garden we saw Rufous-crested Coquette, Blue-tailed Emerald, White-chinned and Golden-tailed Sapphire and Sapphire-spangled Emerald. At dusk we heard Ferruginous Pygmy Owl, Band-bellied Owl, Rufous and Spot-tailed Nightjar. All from the garden...

We followed the road about 2 kilometres south to a place called Ruminyaco. Here we walked a trail to the right of the road. Still some good habitat around here. Golden-collared Toucanet, Lettered Aracari and Stripe-chested Antwren among others.

Fiery-throated Fruiteater *Pipreola chlorolepidota*

One morning we made a quite strenuous walk from the Orquidario. Despite some rain after a few hours we managed to see some good birds like Chestnut-throated Spinetail, Northern Chestnut-tailed Antbird, Andean Laniisoma and Fiery-throated Fruiteater.

Yurimaguas Road (San Martín)

In Tarapoto we stayed at the very good and newly opened [Tucan Suites](#). Though the hamburger is not recommended in the restaurant, the food was in general very good. Anders was struck with food poisoning and missed almost one day of birding.

Going northeast from Tarapoto on the road to Yurimaguas takes you through some very good habitat. Basically anywhere where it is safe to stop is OK for birding. All the way up to the tunnel and beyond is very good. Wattled Guan, Brown-mandibled Aracari, Black-and-white Hawk-Eagle, White-winged Parakeet, Chestnut-throated Spinetail, Dotted and Yellow-backed Tanager were some of the birds seen here.

Yurimaguas road

Cliff Flycatcher *Hirundinea ferruginea*

Continuing further beyond the tunnel going downhill again we eventually came to a place (about 750 masl) where they have hummingbird feeders. We had Koepcke's Hermit (endemic), Grey-breasted Sabrewing, Green Hermit, Gould's Jewelfront and Black-eared Fairy at the feeders. The surrounding habitat is of course also good with Golden-headed and Fiery-capped Manakin and more.

Pumarinri (San Martín)

The last three nights we stayed at [Pumarinri lodge](#) which is located along the road to Chasuta on the banks of Huallaga river. The birding around here is fairly good. The birding is done mainly from the main road. The best birding was towards Tarapoto along a dirt track to the right. Birds found around the lodge included King Vulture, Rufous-breasted Hermit, Long-billed Starthroat, Pale-legged Hornero, Southern Chestnut-tailed Antbird, Sulphur-bellied Neopelma and Olive Oropendola.

Coming from Tarapoto, at the southern end of Juan Guerra there is a dirt track to the left. We followed this road and had some nice birding in dry habitat. Birds seen here were e.g. Ornate Hawk-Eagle, Stripe-necked and Pearly-vented Tody-Tyrant and Rufous Casiornis.

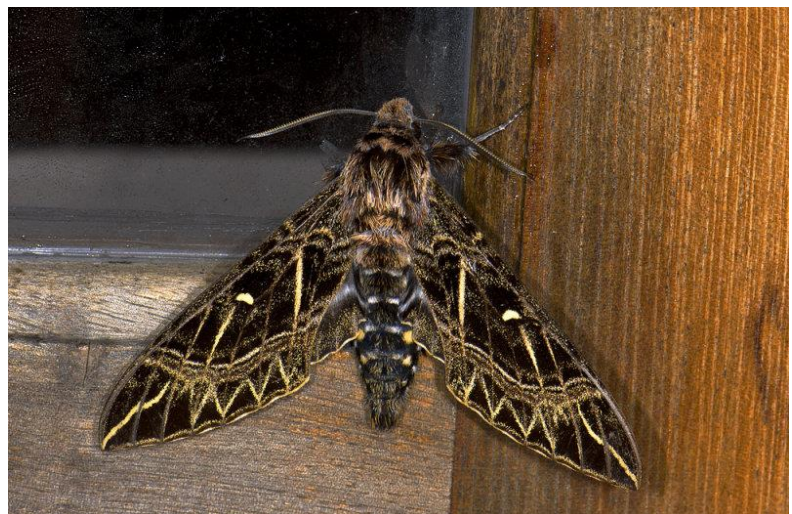

Further south we made a half day trip to Quebrada Upaquihua. The habitat is similar to that around Juan Guerra. We manage to see some good birds including Grey-necked Wood Rail, Planalto Hermit, Plain-breasted Ground Dove, Straight-billed Woodcreeper and Short-billed Antwren.

Pumarinri lodge

Rhetus dysonii

Bird List

The taxonomy follows **Larsson et.al. 2008. Birds of the World ver. 2.0 (BW)**. Subspecies name is added after species name when possible. When more than one subspecies seen these are separated in the record list. Subspecies mainly identified by geographical distribution.

Species endemic to Peru are highlighted with red colour.

Little Tinamou *Crypturellus soui nigriceps*
2 heard Ruminyaco and 3 heard Moyobamba

Pale-browed Tinamou *Crypturellus transfasciatus*
1 + 1 heard Quebrada Frejolillo

Tataupa Tinamou *Crypturellus tataupa inops*
2 antenna road Jaén and singles heard Moyobamba, Juan Guerra and Quebrada Upaquihua

Knob-billed (Comb) Duck *Sarkidiornis melanotos sylvicola*
Ca 50 Gallito Ciego and 1 rice fields 3 km N Jaén

Torrent Duck *Merganetta armata leucogenis*
1 ♀ Abra Patricia

Cinnamon Teal *Anas cyanoptera*
5 + 5 Santa Rosa fields

Speckled Chachalaca *Ortalis g. guttata*
1 heard Chirinos, 3 Moyobamba, 1 + 1 heard + 7 Pumarinri

Andean Guan *Penelope montagnii plumosa*
3 Abra Barro Negro, 2 along the road Leymebamba–Pedro Ruiz and 2 + 2 Yambrasbamba

White-winged Guan *Penelope albipennis* (CR)
4 Quebrada Frejolillo

Wattled Guan *Aburria aburri*
2 seen + 2 times heard Yurimaguas road

Waved Albatross *Phoebastria irrorata* (CR)
5 + 1 on two pelagic tours off Mancora

Pink-footed Shearwater *Puffinus creatopus* (VU)
7-8 + 3 on two pelagic tours off Mancora

Sooty Shearwater *Puffinus griseus*
Ca 20 + 5 on two pelagic tours off Mancora and ca 20 Puerto Etén

Galapagos Petrel *Pterodroma phaeopygia* (CR)
30 + 5 on two pelagic tours off Mancora

Least Grebe *Tachybaptus dominicus brachyrhynchus*
1 seen two days in marsh 4 km S Juan Guerra

Pied-billed Grebe *Podilymbus podiceps antarcticus*
3 Santa Rosa fields and 1 Laguna Suyuscocha

Wood Stork *Mycteria americana*
1 Olmos and 3 rice fields 3 km N Jaén

Jabiru *Jabiru mycteria*
1 Mancora

Cocoi Heron *Ardea cocoi*
2 Mancora, 5 Paita, ca 10 Santa Rosa fields and 2 Rio Romero

Great Egret *Casmerodius albus egretta*
Common all over

Little Blue Heron *Egretta caerulea*
Seen 6 days mostly along the coast and around Jaén

Snowy Egret *Egretta t. thula*
Common all over

Cattle Egret *Bubulcus i. ibis*
Very common all over

Striated Heron *Butorides s. striata*
Seen 12 days in suitable marshes or streams

Black-crowned Night Heron *Nycticorax nycticorax*
1 Santa Rosa fields

Fasciated Tiger Heron *Tigrisoma fasciatum salmoni*

2 in river along the road Jaén–Pedro Ruiz

Brown Pelican *Pelecanus occidentalis murphyi*
2 + 2 on two days pelagic off Mancora and 3 Puerto Etén

Peruvian Pelican *Pelecanus thagus*
Common on two days pelagic off Mancora and around Puerto Etén

Magnificent Frigatebird *Fregata magnificens*

Common on two days pelagic off Mancora, 1 Pimentel and ca 10 Puerto Etén

Nazca Booby *Sula granti*

3 pelagic off Mancora

Blue-footed Booby *Sula n. nebouxii*

10 + 10 on two days pelagic off Mancora and common at Punta Etén

Peruvian Booby *Sula variegata*

1 Santa Rosa and common around Puerto Etén

Neotropic Cormorant *Phalacrocorax b. brasilianus*

Common along the coast

Guanay Cormorant *Phalacrocorax bougainvillii*

2 Puerto Etén

Anhinga *Anhinga a. anhinga*

5 Rio Romero and 2 + 1 in marsh 4 km S Juan Guerra

Turkey Vulture *Cathartes aura*

Very common all over

Greater Yellow-headed Vulture *Cathartes melambrotus*

3 10 km W of Rioja

Black Vulture *Coragyps atratus*

Very common all over

King Vulture *Sarcoramphus papa*

2 Quebrada Frejolillo and 1 Pumarinri

Osprey *Pandion haliaetus*

1 + 5 Santa Rosa fields, 1 rice fields 3 km N Jaén and 1 S of Juan Guerra

Pearl Kite *Gampsonyx swainsonii magnus*

Singles seen 7 days along the coast and west slope

Double-toothed Kite *Harpagus b. bidentatus*

1 Rio Romero and 1 Yurimaguas road

Hook-billed Kite *Chondrohierax u. uncinatus*

2 Juan Guerra, 1 4 km S Juan Guerra and 1 Yurimaguas road

Swallow-tailed Kite *Elanoides forficatus*

Common on the east slope (Rioja and east)

Savanna Hawk *Buteogallus meridionalis*

2 around Paita, 1 around Olmos and 1 Santa Rosa fields

Roadside Hawk *Rupornis magnirostris*

Seen 10 days Jaén and eastwards

Harris's Hawk *Parabuteo unicinctus harrisi*

1 Quebrada Frejolillo, 1 Abra Porculla and 1 Balsas

Black breasted Buzzard (Black-chested Buzzard-Eagle) *Buteo melanoleucus australis*

1 Abra Porculla, 2 young + 1 ad Rio Chonta, 1 Balsas and 5 Balsas–Abra Barro Negro

Broad-winged Hawk *Buteo platypterus*

1 Chirinos, 1 Yambrasbamba and 1 Ruminyaco

Short-tailed Hawk *Buteo b. brachyurus*

2 Chirinos and 1 Yambrasbamba

Variable Hawk *Buteo polyosoma*

Seen 5 days in the NW

Zone-tailed Hawk *Buteo albonotatus*

1 Pedro Ruiz

Slate-colored Hawk *Leucopternis schistaceus*

1 Rio Romero

White Hawk *Leucopternis a. albicollis*

1 + 1 Yurimaguas road and 1 Pumarinri

Black-and-white Hawk-Eagle *Spizaetus melanoleucus*

1 Yurimaguas road

Black Caracara *Daptrius ater*

2 10 km W Rioja and 1 Pumarinri

Mountain Caracara *Phalcoboenus megalopterus*

2 ad + 1 young Rio Chonta, 6 along the road Cajamarca–Celendin

Northern Crested Caracara *Caracara cheriway*

Singles seen 5 days in the west along the coast

Yellow-headed Caracara *Milvago c. chimachima*

1 heard Rio Romero and 1 Pumarinri

Laughing Falcon *Herpetotheres c. cachinnans*

1 heard Quebrada Frejolillo and 2 heard Moyobamba

Barred Forest Falcon *Micrastur ruficollis zonothorax*

1 heard owl trail Abra Patricia

American Kestrel *Falco sparverius*

Singles and pairs seen 11 days in the west

Aplomado Falcon *Falco femoralis pichincae*

1 Abra Porculla, 1 Gallito Ciego and 1 Yambrasbamba

Bat Falcon *Falco r. ruficularis*

2 along the road Pedro Ruiz–Jaén and 1 + 2 Afluente

Orange-breasted Falcon *Falco deiroleucus*

1 Afluente

Peregrine Falcon *Falco peregrinus*

1 Paita, 1 juv Quebrada Frejolillo, 3 Santa Rosa fields and 1 along the road Balsas–Abra Barro Negro

Limpkin *Aramus g. guarauna*

5 Rio Romero

Russet-crowned Crake *Anurolimnas v. viridis*

1 antenna road W Jaén, 2 heard Moyobamba, 1 heard Juan Guerra and 1 heard Pumarinri

Black-banded Crake *Anurolimnas fasciatus*

1 heard 10 km W Rioja and 1 heard Rio Romero

Rufous-sided Crake *Laterallus melanophaius oenops*

1 + 1 10 km W Rioja

Grey-necked Wood Rail *Aramides c. cajanea*

1 Quebrada Upaquihoa

Paint-billed Crake *Neocrex e. erythropis*

1 rice fields 3 km N Jaén

Spotted Rail *Pardirallus m. maculatus*

2 rice fields 3 km N Jaén and 1 Chirinos area

Plumbeous Rail *Pardirallus sanguinolentus tschudii*

5 heard and 2 seen Laguna Pomacochas

Purple Gallinule *Porphyrio martinicus*

1 rice fields 3 km N Jaén and 1 marsh 4 km S Juan Guerra

Common Moorhen *Gallinula chloropus*

Seen 11 days in suitable wetlands

Andean Coot *Fulica ardesiaca*

Ca 100 Laguna Suyuscocha

Peruvian Thick-knee *Burhinus superciliosus*

American Oystercatcher *Haematopus p. palliatus*

1 Paita and 6 Puerto Etén

Andean Lapwing *Vanellus resplendens*

1 heard Cajamarca–Celendin and 6 + 2 Laguna Pomacochas

Killdeer *Charadrius vociferus*

1 Abra Porculla and 5 + 1 Santa Rosa fields

Kentish (Snowy) Plover *Charadrius alexandrinus occidentalis*

1 Santa Rosa fields

Tawny-throated Dotterel *Oreopholus ruficollis pallidus*

6 Santa Rosa fields

Least Seedsnipe *Thinocorus rumicivorus*

1 pair Santa Rosa fields

Wattled Jacana *Jacana jacana peruviana*

1 W of Rioja, 1 Moyobamba–Tarapoto and 5 in marsh 4 km S Juan Guerra

Puna Snipe *Gallinago andina*

4 + 6 Laguna Pomacochas

Red-necked Phalarope *Phalaropus lobatus*

Common on two days pelagic off Mancora

Red Phalarope *Phalaropus fulicarius*

Common first day and 5 second day on pelagic off Mancora

Whimbrel *Numenius phaeopus*

1 Puerto Etén

Spotted Sandpiper *Actitis macularius*

Seen 7 days along the coast and on the west slope

Sanderling *Calidris alba*

10 Santa Rosa fields and 10 Puerto Etén

Least Sandpiper *Calidris minutilla*

3 Santa Rosa fields

Ruddy Turnstone *Arenaria interpres*

10 Santa Rosa fields and 4 Puerto Etén

Pomarine Skua *Stercorarius pomarinus*

8 on pelagic off Mancora and 2 Puerto Etén

Black Tern *Chlidonias niger surinamensis*

20 + 5 on two days pelagic off Mancora

Royal Tern *Thalasseus m. maximus*

2 + 15 on two days pelagic off Mancora, 10 Santa Rosa fields and 6 Puerto Etén

Sandwich Tern *Thalasseus sandvicensis*

1 on pelagic off Mancora and 3 Puerto Etén

Elegant Tern *Thalasseus elegans*

Common on pelagic off Mancora, 1 Santa Rosa fields and common Puerto Etén

Sabine's Gull *Xema sabini*

5 on pelagic off Mancora

Andean Gull *Larus serranus*

1 flying along Marañon river in Balsas

Grey-hooded Gull *Larus c. cirrocephalus*

5 on pelagic off Mancora and common Santa Rosa fields and Puerto Etén

Grey Gull *Larus modestus*

3 Puerto Etén

Laughing Gull *Larus atricilla*

Common on pelagic off Mancora

Franklin's Gull *Larus pipixcan*

5 on pelagic off Mancora and very common (>10000!) Santa Rosa fields and Puerto Etén

Band-tailed (Belcher's) Gull *Larus belcheri*

3 Santa Rosa fields and 1 Puerto Etén

Kelp Gull *Larus dominicanus*

Common Santa Rosa fields and Puerto Etén

Bare-faced Ground Dove *Metriopelia ceciliae*

Fairly common around Balsas and the west slope off the Marañon valley

Blue Ground Dove *Claravis pretiosa*

Up to 10 seen or heard 6 days (Jaén, Chirinos, Rioja and Quebrada Upaquihoa)

Maroon-chested Ground Dove *Claravis mondetoura*

1 owlet trail Abra Patricia

Plain-breasted Ground Dove *Columbina minuta amazilia*

1 Santa Rosa, 1 Juan Guerra and 1 heard Quebrada Upaquihoa

Ecuadorian Ground Dove *Columbina buckleyi dorsti*

Common around Jaén and Chirinos

Ruddy Ground Dove *Columbina t. talpacoti*

Fairly common on east slope (Rioja and eastwards)

Croaking Ground Dove *Columbina cruziana*

Common along the coast and east to Jaén

Scaled Pigeon *Patagioenas speciosa*

2 Rio Romero

Band-tailed Pigeon *Patagioenas fasciata albilinea*

Seen 8 days (e.g. Abra Barro Negro, Leymebamba, Yambrasbamba, Abra Patricia)

Pale-vented Pigeon *Patagioenas cayennensis sylvestris*

4 Leymebamba–Pedro Ruiz, 2 Juan Guerra and 2 + 10 Pumarinri

Marañon (Peruvian) Pigeon *Patagioenas oenops (VU)*

Ca 20 seen both days in Balsas

Plumbeous Pigeon *Patagioenas plumbea delicata*

2–5 daily in Yambrasbamba, Abra Patricia and Moyobamba

Ruddy Pigeon *Patagioenas subvinacea bogotensis (VU)*

3 + 3 Afluente and 1 heard Moyobamba

West Peruvian Dove *Zenaida meloda*

Common along the coast and the west slope

Eared Dove *Zenaida auriculata hypoleuca*

Common along the coast and east to Jaén

White-tipped Dove *Leptotila verreauxi*

ssp. decolor: common along the coast and the west slope east to Jaén

ssp. decipiens: 1 Yambrasbamba and 3 + 3 Pumarinri

Grey-fronted Dove *Leptotila rufaxilla dubusi*

1 Afluente, 3 Rio Romero, 1 heard Ruminyaco and 3 + 3 Pumarinri

Pallid Dove *Leptotila pallida*

2 Abra Porculla. Out of range(?), but this species according to Boris.

White-throated Quail-Dove *Geotrygon frenata erythropareia*

1 heard Abra Barro Negro and 1 heard ECOAN

Military Macaw *Ara m. militaris* **VU**

2 heard Yambrasbamba

Scarlet-fronted Parakeet *Aratinga wagleri*

frontata

Seen 6 days e.g. fairly common Quebrada Frejolillo, ca 40 Balsas, 5 along the road Leymebamba–Pedro Ruiz and ca 300 Pedro Ruiz

Mitred Parakeet *Aratinga m. mitrata*

5 Abra BarroNegro and fairly common Leymebamba–Pedro Ruiz

Red-masked Parakeet *Aratinga erythrogenys*

Common Quebrada Frejolillo with several flocks

White-eyed Parakeet *Aratinga leucophthalma*

callogenys

Seen 8 days, e.g. common around Jaén, 10 Chirinos, ca 30 Yambrasbamba, 5 Moyobamba and 5 Juan Guerra

Golden-plumed Parakeet *Leptosittaca branickii* **(VU)**

Ca 10 Abra Patricia

Rose-fronted Parakeet *Pyrrhura roseifrons*

10 + 3 Yurimaguas road (near the water fall)

Blue-winged Parrotlet *Forpus xanthopterygius*

crassirostris

2 ca 10 km W of Rioja and 4 Juan Guerra

Pacific Parrotlet *Forpus coelestis*

Common along the coast and around Jaén, seen 8 days

Yellow-faced Parrotlet *Forpus xanthops* **(VU)**

Ca 15 Balsas (orchard N Balsas)

White-winged Parakeet *Brotogeris versicolurus*

4 Yurimaguas road

Grey-cheeked Parakeet *Brotogeris pyrrhoptera*

(EN)

2 Limon de Porculla

Cobalt-winged Parakeet *Brotogeris cyanoptera*

gustavi

Common in the eastern lowlands

Blue-headed Parrot *Pionus m. menstruus*

Common in eastern lowlands

Red-billed Parrot *Pionus sordidus corallinus*

5 Chirinos area

White-capped Parrot *Pionus seniloides*

2 San Lorenzo, 6 Yambrasbamba, 4 Abra Patricia and 5 Afluente

Yellow-crowned Amazon *Amazona*

ochrocephala nattereri

2 Afluente and 2 Moyobamba

Scaly-naped Amazon *Amazona m. mercenaria*

Ca 100 E of Pedro Ruiz, 2 + 2 Abra Patricia

Mealy Amazon *Amazona f. farinosa*

2 Rio Romero

Squirrel Cuckoo *Piaya cayana nigricrissa*

1 E Pomacochas and a few (max 5) each day in eastern lowlands

Greater Ani *Crotophaga major*

Ca 50 Rio Romero and ca 10 Pumarinri

Smooth-billed Ani *Crotophaga ani*

Common in eastern lowlands

Groove-billed Ani *Crotophaga sulcirostris*

Common in the west (east to Jaén)

Striped Cuckoo *Tapera n. naevia*

Seen 8 days mostly in western lowlands and Marañon valley

Pheasant Cuckoo *Dromococcyx phasianellus*

1 heard Juan Guerra and 1 heard Pumarinri

Hoatzin *Opisthocomus hoazin*

Heard Rio Romero and 1 Rio Huallaga (west of Pumarinri)

Koepcke's Screech Owl *Megascops koepckeeae*

1 heard Hazienda Yanamarca

Peruvian Screech Owl *Megascops roboratus*

pacificus

1 heard Limon de Porculla and 1 Olmos

Rufous-banded Owl *Strix albitarsis*

1 seen 2 days at the lodge Abra Patricia

Black-banded Owl *Ciccaba h. huhula*

1 heard 2 nights at Pumarinri

Band-bellied Owl *Pulsatrix m. melanota*

1 heard Moyobamba

Ferruginous Pygmy Owl *Glaucidium brasilianum*

ucayalae

1 heard Moyobamba and 1 Pumarinri

Pacific (Peruvian) Pygmy Owl *Glaucidium peruanum*

2 Quebrada Frejolillo, 1 San Marcos and 2 west slope Marañon valley at Balsas

Long-whiskered Owlet *Xenoglaux loweryi* (EN)

1 heard owl trail Abra Patricia

Burrowing Owl *Speotyto cunicularia*

Ca 10 in dry river bed at Olmos, 1 heard Abra Porculla, 2 Bosque de Pomac and 4 + ca 10 Santa Rosa fields

Striped Owl *Pseudoscops c. clamator*

1 El Remanzo lodge Olmos (only Janis)

Lesser Nighthawk *Chordeiles acutipennis exilis*

Ca 10 Olmos and 1 Quebrada Frejolillo

Rufous Nightjar *Caprimulgus rufus*

1 heard Moyobamba

Spot-tailed Nightjar *Caprimulgus maculicaudus*

1 Moyobamba

Chestnut-collared Swift *Streptoprocne rutila brunntorques*

Ca 50 Abra Porculla and ca 20 along the road to Cajamarca

White-collared Swift *Streptoprocne zonaris*

Common often in large flocks in mountains and eastern lowlands

Grey-rumped Swift *Chaetura cinereiventris sclateri*

Ca 50 Rioja, 5 Yurimaguas road and 10 seen 2 days Pumarinri

Pale-rumped Swift *Chaetura egregia*

Seen 5 days e.g. ca 10 Rioja and ca 30 seen 2 days Pumarinri

Chaetura Swift sp. *Chaetura sp.*

1 Chaetura-swift seen well but due to difficulties separating Mato Grosso/Chimney/Sick's swift this bird left unidentified

Short-tailed Swift *Chaetura brachyura cinereocauda*

2 seen in Chirinos this species or Tumbes (?) and ca 10 Afluente

Tumbes Swift *Chaetura ocybetes*

5 Limon de Porculla and 5 Abra Porculla

White-tipped Swift *Aeronautes m. montivagus*

Seen 8 days

Andean Swift *Aeronautes andecolus parvulus*

5 Rio Chonta

Neotropical (Fork-tailed) Palm Swift *Tachornis s. squamata*

Fairly common in eastern lowlands

Lesser Swallow-tailed Swift *Panyptila c. cayennensis*

1 Rio Chonta

Rufous-breasted Hermit *Glaucis h. hirsutus*

1 Rio Romero, 1 Moyobamba, 1 Yurimaguas road and 1 Pumarinri

Green Hermit *Phaethornis guy apicalis*

1 heard Afluente and 2 Yurimaguas road

Great-billed (Long-tailed) Hermit *Phaethornis malaris moorei*

1 seen 2 days Moyobamba, 1 + 1 Yurimaguas road

Tawny-bellied Hermit *Phaethornis syrmatophorus columbianus*

1 + 1 Abra Patricia

Koepcke's Hermit *Phaethornis koepckeae*

3 Yurimaguas road

Planalto Hermit *Phaethornis pretrei*

1 Quebrada Upaquihua

Reddish Hermit *Phaethornis ruber nigricinctus*

1 Rio Romero, 1 Moyobamba and 1 Pumarinri

Grey-chinned Hermit *Phaethornis griseogularis ssp. porcullae*: 1 Limon de Porculla, 3 Quebrada Frejolillo and 4 Abra Porculla

ssp. zonura: 1 Leymebamba–Pedro Ruiz and 4 antenna road W of Jaén

Grey-breasted Sabrewing *Campylopterus largipennis aequatorialis*

Ca 10 Yurimaguas road and 1 Pumarinri

White-necked Jacobin *Florisuga m. mellivora*

3 Moyobamba and 5 Yurimaguas road

Green Violetear *Colibri thalassinus*

1 Rio Chonta, 1 Abra Barro Negro, common ECOAN and 1 Moyobamba

Sparkling Violetear *Colibri coruscans*

Seen 9 days e.g. Rio Chonta, Chirinos, ECOAN and Moyobamba

Black-throated Mango *Anthracothorax n. nigricollis*

2 Yurimaguas road

Violet-headed Hummingbird *Klais guimeti*

1 ♂ Moyobamba

Rufous-crested Coquette *Lophornis d. delattrei*

3 first day and 1 second day Moyobamba

Blue-tailed Emerald *Chlorostilbon mellisugus phoeopygus*

4 seen 2 days Moyobamba

Fork-tailed Woodnymph *Thalurania furcata*

2 Afluente, 1 Moyobamba, ca 10 Yurimaguas road and 2 Pumarinri

White-chinned Sapphire *Hylocharis cyanus rostrata*

1 Moyobamba

Golden-tailed Sapphire *Chrysuronia oenone josephinae*

Common Moyobamba and 5 Yurimaguas road

Tumbes Hummingbird *Leucippus baeri*

Ca 50 Quebrada Frejolillo

Spot-throated Hummingbird *Leucippus taczanowskii*

Seen 7 days (west slope and Marañon valley)

White-bellied Hummingbird *Amazilia c. chionogaster*

1 Celendin–Balsas, common Leymebamba–Pedro Ruiz, common ECOAN and 1 La Florida

Many-spotted Hummingbird *Taphrospilus hypostictus*

1 Chirinos and 1 Yurimaguas road

Amazilia Hummingbird *Amazilia amazilia leucophaea*

Fairly common along the coast and the west slope. Seen 7 days

Andean Emerald *Amazilia franciae cyanocollis*

1 Celendin–Balsas, common Balsas–Leymebamba, ca 10 Leymebamba–Pedro Ruiz, 3 Jaén, 3 Chirinos and 5 Jaén–Pedro Ruiz

Glittering-throated Emerald *Amazilia fimbriata laeta*

1 W of Rioja

Sapphire-spangled Emerald *Amazilia lactea bartletti*

6 Moyobamba and 3 + 2 Pumarinri

Speckled Hummingbird *Adelomyia melanogenys ssp. maculata*: 1 Abra Porculla and 2 Rio Chonta

ssp. melanogenys: 1 Yambrasbamba, 5 seen 2 days Abra Patricia and 2 Afluente

Gould's Jewelfront *Heliodoxa aurescens*

2 Yurimaguas road

Fawn-breasted Brilliant *Heliodoxa rubinoides cervinigularis*

1 Chirinos and ca 10 seen 2 days Abra Patricia

Violet-fronted Brilliant *Heliodoxa leadbeateri sagitta*

1 ECOAN

Chestnut-breasted Coronet *Boissonneaua matthewsii*

2 Balsas–Abra Barro Negro and common on feeders at ECOAN and Abra Patricia

Shining Sunbeam *Aglaeactis c. cupripennis*

Ca 20 La Encañada and 2 Balsas–Abra Barro Negro

Andean Hillstar *Oreotrochilus estella stolzmanni*

1 ♂ Rio Chonta

Bronzy Inca *Coeligena coeligena obscura*

Ca 10 ECOAN, 1 Yambrasbamba and 5 seen 2 days Abra Patricia

Collared Inca *Coeligena torquata*

1 San Lorenzo, 2 Yambrasbamba and maximum 10 Abra Patricia

Violet-throated Starfrontlet *Coeligena violifer dichroua*

6 San Lorenzo

Sword-billed Hummingbird *Ensifera ensifera*

uropygialis

1 Yambrasbamba

Yellow-crowned Tyrannulet *Tyrannulus elatus*

2 Abra Patricia, 2 + 2 Pumarinri

Pacific Elaenia *Myiopagis subplacens*

5 at Bosque de Pomac

Yellow-bellied Elaenia *Elaenia flavogaster*

A few seen 7 days (Bosque de Pomac, Celandin, Jaen, Yambrasbamba, Ruminiyaco, Quebrada Upaquihua)

White-crested Elaenia *Elaenia albiceps*

5 La Encanâde – Celandin and 3 Yambrasbamba

Lesser Elaenia *Elaenia chiriquensis*

A few seen 4 days (West slope Marañon Valley, Leymebamba, Chirinos, Moyobamba)

Highland Elaenia *Elaenia obscura*

1 Chirinos

Sierran Elaenia *Elaenia pallatangae*

1 +1 Abra Patricia

White-lored Tyrannulet *Ornithion inerme*

2 Yurimaguas Road and 1 Pumarinri

Southern Beardless Tyrannulet *Camptostoma*

obsoletum

The most common Tyrannulet. Seen 11 days in dry biotope

White-tailed Tyrannulet *Mecocerculus*

poecilocercus

5 at Abra Paraculla and 6 at Yambrasbamba

White-banded Tyrannulet *Mecocerculus*

stictopterus

5 along the road between Balsas and Leymebamba

White-throated Tyrannulet *Mecocerculus*

leucophrys

1 along the road between Balsas and Leymebamba

Sulphur-bellied Tyrannulet *Mecocerculus minor*

1 at Abra Patricia

Black-crested Tit-Tyrant *Anairetes nigrocristatus*

2 Rio Chonta and 1 Celandin

Yellow-billed Tit-Tyrant *Anairetes flavirostris*

2 Rio Chonta

Torrent Tyrannulet *Serpophaga cinerea*

Fairly common along rivers at Rio Chonta, Leymebamba, Pedro Ruiz, Abra Patricia

Mouse-colored Tyrannulet *Phaeomyias murina*

1 Moyobamba and 1 Juan Guerra

Tumbesian Tyrannulet *Phaeomyias tumbezana*

Seen 7 days in dry areas at the coast and Marañon valley

Subtropical Doradito *Pseudocolopteryx*

acutipennis

2 + 2 in the reed at Pomacochas lake

Rufous-headed Pygmy Tyrant *Pseudotriccus*

ruficeps

1 Abra Patricia

Tawny-crowned Pygmy Tyrant *Euscarthmus*

meloryphus

Seen 9 days, fairly common some days in the west.

Grey-and-white Tyrannulet *Pseudelaenia*

leucospodia

1 along the road Piura – Olmos, 5 + 3 around Olmos

Red-billed Tyrannulet *Zimmerius cinereicapilla* (VU)

1 building a nest at Yurimaguas road

Slender-footed Tyrannulet *Zimmerius gracilipes*

1 Yurimaguas road and 1 Pumarinri

Golden-faced Tyrannulet *Zimmerius c. chrysops*

A few seen Pomacotcha and Abra Patricia. 2 + 2 Yurimaguas road

Ecuadorian Tyrannulet *Phylloscartes*

gualaquizae

2 Afluente

Variegated Bristle Tyrant *Pogonotriccus poecilotis*

1 Afluente

Sepia-capped Flycatcher *Leptopogon amaurocephalus*

1 Pumarinri

Slaty-capped Flycatcher *Leptopogon superciliaris*

1 along the road between Leymebamba – Jaen and 5 Afluente

Inca Flycatcher *Leptopogon taczanowskii*

4 Yambrasbamba and 2 Abra Patricia

Streak-necked Flycatcher *Mionectes striaticollis*

1 Chirinos, a few seen all 4 days at Abra Patricia / Afluente and 1 Yurimaguas road

Olive-striped Flycatcher *Mionectes olivaceus*

1 Abra Patricia

Amazonian Scrub Flycatcher *Sublegatus*

obscurior

1 Quebrada Upaquihoa

Ornate Flycatcher *Myiotriccus ornatus*

1 Yurimaguas road

Many-colored Rush Tyrant *Tachuris rubrigastra*

5 + 1 Santa Rosa Wetlands

Black-throated Tody-Tyrant *Hemitriccus*

granadensis

1 Santos Place La Florida and 1 Abra Patricia

Lulu's Tody-Flycatcher *Poecilotriccus luluae* (EN)

3 "Monkey Trail" Abra Patricia

Rusty-fronted Tody-Flycatcher *Poecilotriccus latirostris*

2 + 1 Pumarinri

Common Tody-Flycatcher *Todirostrum cinereum*

The most common Tody-Fly, Seen 10 days on the Eastern slope and in the East

Yellow-browed Tody-Flycatcher *Todirostrum*

chrysocrotaphum

A few (1+1+2+1) seen 2 days at Yurimaguas Road and 2 days Pumarinri

Yellow-olive Flatbill (Flycatcher) *Tolmomyias sulphurescens*

2 Quebrada Frejolillo and 2 Juan Guerra

Zimmer's Flatbill (Yellow-margined Flyc.)

Tolmomyias assimilis

1 Rio Romero and 1 Yurimaguas Road

Olive-faced Flatbill (Yellow-breasted Flyc.)

Tolmomyias viridiceps

A few seen 4 days at Maybamba, Yurimaguas Road and Pumarinri

Handsome Flycatcher *Myiophobus pulcher*

1 Abra Patricia

Orange-banded Flycatcher *Myiophobus lintoni*

1 Abra Patricia

Bran-colored Flycatcher *Myiophobus fasciatus*

1 on the West slope of the Marañón Vally and 1 "Antenna Road" Jaen

Cinnamon Neopipo (Tyrant) *Neopipo*

cinnamomea

1 Afluente

Cinnamon Flycatcher *Pyrrhomyias cinnamomeus*

1 Jaen, Fairly common Abra Patricia.

Cliff Flycatcher *Hirundinea ferruginea*

10 along the road between Leymebamba and Jaen, 2 Abra Patricia, Fairly common Yurimaguas road

Grey-breasted Flycatcher *Lathrotriccus*

grisepectus (VU)

2 Quebrada Frejolillo

Alder Flycatcher *Empidonax alnorum*

1 Rio Romero

Olive-sided Flycatcher *Contopus cooperi*

1 Moyobamba

Smoke-colored Pewee *Contopus fumigatus*

5 Abra Parquilla

Western Wood Pewee *Contopus sordidulus*
1 Yurimaguas road

Eastern Wood Pewee *Contopus virens*
1 Yurimaguas Road. You will see more Wood Pewees but they are difficult... Need to hear them as well.

Tropical Pewee *Contopus cinereus*
1 "Antenna Road" Jaen

Tumbes Pewee *Contopus punensis*
10 Quebrada Frejolillo

Black Phoebe *Sayornis nigricans*
Seen 9 days all over, always close to rivers.

Vermilion Flycatcher *Pyrocephalus rubinus*
Very common in the west and in the Andeans

Andean Tyrant *Knipolegus signatus*
1 Abra Patricia

White-winged Black Tyrant *Knipolegus aterrimus*
3 San Marcos

Tumbes Tyrant *Tumbezia salvini*
1 Quebrada Frejolillo

Jelski's Chat-Tyrant *Ochthoeca jelskii*
1 on the west slope of Marañón valley

Maroon-belted Chat-Tyrant *Ochthoeca thoracica*
1 + 2 Abra Patricia

White-browed Chat-Tyrant *Ochthoeca leucophrys*
10 Rio Chonta and 5 La Encanada

Piura Chat-Tyrant *Ochthoeca piurae*
5 Abra Paraculla

Drab Water Tyrant *Ochthornis littoralis*
2 Pumarinri

Streak-throated Bush Tyrant *Myiotheretes striaticollis*
1 San Lorenzo Bosque

Rufous-webbed Bush Tyrant *Polioptila rufipennis*
3 La Encanada

White-tailed Shrike-Tyrant *Agriornis andicola*
(VU)
3 Laguna Suyuscocha and 2 Celendin

Little Ground Tyrant *Muscisaxicola fluviatilis*
1 Yurimaguas Road

1 Moyobamba

Short-tailed Field Tyrant *Muscigralla brevicauda*
3 + 1 + 1 + 1 seen Mancora and Olmos area

Piratic Flycatcher *Legatus leucophaeus*
2 + 2 + 5 + 2 seen Rioja, Moyobamba and Pumarinri

Social Flycatcher *Myiozetetes similis*
Common on the Eastern slope and in the Amazons

Grey-capped Flycatcher *Myiozetetes granadensis*
A few seen 6 days in the East (Afluente, Yurimaguas road, Pumarinri)

Great Kiskadee *Pitangus sulphuratus*
Common in the East

Lesser Kiskadee *Pitangus lictor*
A few seen 6 days in the East (Afluente, Yurimaguas road, Pumarinri)

Golden-crowned Flycatcher *Myiodynastes chrysocephalus*
1 Afluente and 3 Yurimaguas Road

Baird's Flycatcher *Myiodynastes bairdii*
5 + 20 + 3 + 4 seen Olmos area

Streaked Flycatcher *Myiodynastes maculatus*
2 + 1 + 1 Yurimaguas road

Boat-billed Flycatcher *Megarynchus pitangua*
1 Chirinos, 1 Rio Romero and 5 + 5 Pumarinri

Tropical Kingbird *Tyrannus melancholicus*
The most common flycatcher seen 25 days

Rufous Casiornis *Casiornis rufus*
2 Juan Guerra and 1 Pumarinri

Rufous Flycatcher *Myiarchus semirufus* (EN)
1 Bosque de Pomac

Dusky-capped Flycatcher *Myiarchus tuberculifer*
1 western slope Marañón valley and 1 Chirinos

Pale-edged Flycatcher *Myiarchus cephalotes*
1 Abra Patricia

Sooty-crowned Flycatcher *Myiarchus phaeocephalus*
1 antenna road Jaén

Brown-crested Flycatcher *Myiarchus tyrannulus*
2 antenna road Jaén and 1 Moyobamba

Bright-rumped Attila *Attila spadiceus*
1 + 1 Yurimaguas road and 1 Pumarinri

Rufous-browed Peppershrike *Cyclarhis gujanensis*
Seen 9 days in wooded areas

Brown-capped Vireo *Vireo leucophrys*
3 + 2 + 1 + 2 seen Chirinos, Yambrasbamba and Abra Patricia

Red-eyed Vireo *Vireo olivaceus*
A few seen Jaén area, Abra Patricia and Yurimaguas road, common Pumarinri

Yellow-green Vireo *Vireo flavoviridis*
1 Abra Patricia and 3 Moyobamba

Lemon-chested Greenlet *Hylophilus thoracicus*
1 Afluente

Ashy-headed Greenlet *Hylophilus pectoralis*
1 + 1 Pumarinri

Olivaceous Greenlet *Hylophilus olivaceus*
3 Afluente

Tawny-crowned Greenlet *Hylophilus ochraceiceps*
1 Moyobamba and 1 Pumarinri

White-collared Jay *Cyanolyca viridicyanus*
5 + 5 Abra Patricia

Violaceous Jay *Cyanocorax violaceus*
1 heard Yurimaguas road

White-tailed Jay *Cyanocorax mystacalis*
10 Quebrada Frejolillo, 2 Abra Porculla and 2 Bosque de Pomac

Inca (Green) Jay *Cyanocorax yncas*
Seen 8 days (Marañon, Chirinos, Yambrasbamba, Abra Patricia and Pumarinri)

Sand Martin (Bank Swallow) *Riparia riparia*
5 Pumarinri

Tumbes Swallow *Tachycineta stolzmanni*
Common Piura – Paita area and 1 Bosque de Pomac

White-winged Swallow *Tachycineta albiventer*
4 Pedro Ruiz and a few seen every day at Yurimaguas road and Pumarinri

Grey-breasted Martin *Progne chalybea*
Seen 17 days

Brown-chested Martin *Progne tapera*
2 Pumarinri (only Boris)

Brown-bellied Swallow *Notiochelidon murina*
5 Rio Chonta, 5 Celendin and 10 Leymebamba

Blue-and-white Swallow *Pygochelidon cyanoleuca*
The most common swallow, seen 25 days

White-banded Swallow *Atticora fasciata*
Fairly common Yurimaguas road and Pumarinri

Southern Rough-winged Swallow *Stelgidopteryx ruficollis*
Seen 9 days most common Yurimaguas road and Pumarinri

Barn Swallow *Hirundo rustica*
Common Santa Rosa fields and 10 rice fields north of Jaén

Chestnut-collared Swallow *Petrochelidon rufocollaris*
200 in breeding colony under a bridge in Piura and 200 Abra Porculla

Black-capped Donacobius *Donacobius atricapilla*
1 Rioja, 10 Rio Romero and 2 Pumarinri

Grey-mantled Wren *Odontorchilus branickii*
3 Chirinos

Southern Nightingale-Wren (Scaly-breast. W) *Microcerculus marginatus*
2 Pumarinri and 1 Yurimaguas road

Southern House-Wren *Troglodytes musculus*
Seen 23 days

Mountain Wren *Troglodytes solstitialis*
1 + 4 + 1 Abra Patricia

Sedge Wren *Cistothorus platensis*
2 Pomacocha lake

Fasciated Wren *Campylorhynchus fasciatus*
Fairly common Olmos area and common Marañon valley

Grey-breasted Wood Wren *Henicorhina leucophrys*
A few seen Chirinos, Pomacochas and Abra Patricia

Sepia-brown (Sharpe's) Wren *Cinnycerthia olivascens*

3 + 3 Abra Patricia

Plain-tailed Wren *Thryothorus euophrys*
1 heard San Lorenzo

Coraya Wren *Thryothorus coraya*
1 heard Pumarinri

Speckle-breasted Wren *Thryothorus sclateri*
A few Abra Porculla, Bosque de Pomac, Celendin, Leymebamba and Chirinos

Buff-breasted Wren *Thryothorus leucotis*
1 Rio Romero and 2 Quebrada Upaquihua

Superciliated Wren *Thryothorus superciliaris*
Fairly common in dry areas along the coast

Musician Wren *Cyphorhinus arada*
1 Yurimaguas road

Tropical Gnatcatcher *Polioptila plumbea*
Fairly common west of the Andes

Long-tailed Mockingbird *Mimus longicaudatus*
Common along the coast

Andean Solitaire *Myadestes ralloides*
1 Chirinos and a few every day Pomacochas and Abra Patricia

Pale-eyed Thrush *Turdus leucops*
2 Leymebamba

Plumbeous-backed Thrush *Turdus reevei*
Seen 5 days in the west (common Quebrada Frejolillo and Abra Porculla)

Hauxwell's Thrush *Turdus hauxwelli*
1 + 1 Moyobamba and 1 + 5 Pumarinri

Lawrence's Thrush *Turdus lawrencii*
3 Rio Romero

Marañon Thrush *Turdus maranonicus*
5 – 10 birds seen 5 days Marañon valley and Jaén

Black-billed Thrush *Turdus ignobilis*
Common Abra Patricia, Rio Romero and Moyobamba + a few Pumarinri

Chestnut-bellied Thrush *Turdus fulviventris*
1 Chirinos

Great Thrush *Turdus fuscater*
Seen 13 days, Fairly common in the Andes.

Glossy-black Thrush *Turdus serranus*
2 Chirinos, 1 + 1 Abra Patricia.

Chiguanco Thrush *Turdus chiguanco*
5 Abra Parculla, Fairly common West slope of the Andes and in Marañon Valley.

White-eared Solitaire *Entomodestes leucotis*
2 + 2 Abra Patricia

Swainson's Thrush *Catharus ustulatus*
5 Chirinos, 10 + 10 Abra Patricia / Rioja and 1 Yurimaguas Road.

White-capped Dipper *Cinclus leucocephalus*
1 Abra Patricia

Yellowish Pipit *Anthus lutescens*
1 Santa Rosa Wetlands

Hooded Siskin *Carduelis magellanica*
1 Abra Parculla, Fairly common on the West slope of the Andes and on the slopes Marañon Valley and Leymebamba

Olivaceous Siskin *Carduelis olivacea*
1 Chirinos and 1 Abra Patricia

Lesser Goldfinch *Carduelis psaltria*
4 + 1 Balsas and 1 Chirinos

Tropical Parula *Parula pitiayumi*
A few seen 8 days in forrest

Blackburnian Warbler *Dendroica fusca*
A few seen Chirinos, Yambrasbamba, Abra Patricia and Rioja

American Redstart *Setophaga ruticilla*
1 Abra Parculla

Black-lored (Masked) Yellowthroat *Geothlypis auricularis*
1 San Marcos, 4 Balsas

Canada Warbler *Wilsonia canadensis*
1 + 10 Rioja

Slate-throated Whitestart (Redstart) *Myioborus miniatus*
Fairly common Abra Parculla, Chirinos, Rioja. 1 Leymebamba and 1 Yurimaguas Road

Spectacled Whitestart (Redstart) *Myioborus melanocephalus*
1 along the road Balsas. Leymebamba, Fairly common Abra Patricia

Grey-and-gold Warbler *Basileuterus fraseri*
Fairly common Olmos, Abra Paraculla

Citrine Warbler *Basileuterus luteoviridis*
3 Yambrasbamba

Pale-legged Warbler *Basileuterus signatus*
1 Rio Chonta

Black-crested Warbler *Basileuterus nigrocristatus*
2 Abra Paraculla, 10 Rio Chonta, 10 La Encanada, 3 Celendin

Russet-crowned Warbler *Basileuterus coronatus*
A few Yambrasbamba & Pomacotchac. Common Abra Patricia

Three-banded Warbler *Basileuterus trifasciatus*
Common in dry, half dry areas around Olmos.

Buff-rumped Warbler *Phaeothlypis fulvicauda*
A few seen in Moyobamba and Yurimaguas road.

Olive Oropendola *Psarocolius yuracares*
10 + 10 Pumarinri.

Crested Oropendola *Psarocolius decumanus*
1 – 10 seen 6 days. Rioja, Moyobamba, Yurimaguas road and 2 in Pumarinri.

Russet-backed Oropendola *Psarocolius angustifrons*
2 Pomacotchac, Fairly common Rioja, 10 Moyobamba and 10 Pumarinri.

Yellow-rumped Cacique *Cacicus cela*
Common the last 11 days. Rioja, Afluyente, Rio Romero, Moyobamba, Yurimaguas Road and Pumarinri.

Subtropical (Scarlet-rumped) Cacique *Cacicus uropygialis*
5 + 2 Abra Patricia

Northern Mountain Cacique *Cacicus leucoramphus*
1 at 2800 m on the road between Balsas and Leymebamba.

Yellow-billed Cacique *Amblycercus holosericeus*
2 San Lorenzo

Yellow-tailed Oriole *Icterus mesomelas*
5 Abra Paraculla, 2 Balsas, 5 Jaen.

White-edged Oriole *Icterus graceannae*
A few in the Olmos area and common Abra Paraculla.

Orange-backed Troupial *Icterus croconotus*
1 + 1 Pumarinri

Oriole Blackbird *Gymnomystax mexicanus*
2 Jaen, 1 Yambrasbamba, 1 + 1 Pumarinri.

Red-breasted Blackbird *Sturnella militaris*
1 + 1 in the farmlands close to Tarapoto.

Peruvian Meadowlark *Sturnella bellicosa*
Seen 10 days. Common along the coast and in other cultivated areas in the west.

Scrub Blackbird *Dives warszewiczi*
Common in dry areas in the west.

Common in the west, 2 + 4 seen Jaen area and 2 seen Pumarinri.

Giant Cowbird *Molothrus oryzivorus*
A few seen 5 days, Chirinos, Moyobamba, Yurimaguas road, Pumarinri.

Bananaquit *Coereba flaveola*
Common in most areas. Seen 15 days.

Rufous-collared Sparrow *Zonotrichia capensis*
Very common more or less everywhere.

Yellow-browed Sparrow *Ammodramus aurifrons*
A few seen 6 days, Rioja, Yurimaguas Road and Pumarinri.

Tumbes Sparrow *Aimophila stolzmanni*
Seen 3 days, Piura, Olmos and Abra Paraculla.

Peruvian Sierra Finch *Phrygilus punensis*
3 Rio Chonta and 4 La Encanada.

Mourning Sierra Finch *Phrygilus fruticeti*
3 Rio Chonta

Plumbeous Sierra Finch *Phrygilus unicolor*
5 seen 10 km along the road between Cajamarca and Celendin

Ash-breasted Sierra Finch *Phrygilus plebejus*
Seen 5 days. Piura Area, Common Abra Paraculla and Rio Chonta.

Band-tailed Sierra Finch *Phrygilus alaudinus*
2 along the road between Cajamarca and Celendin.

Cinereous Finch *Piezorhina cinerea*

Common Los Organos, 10 + 3 Piura Area and 3 Santa Rosa Wetlands.

Grey-winged Inca Finch *Inca spiza ortizi* (VU)

20 seen on the west slope of the Marañon Valley.

Buff-bridled Inca Finch *Inca spiza laeta*

3 San Marcos and 3 on the west slope of the Marañon Valley.

Little Inca Finch *Inca spiza watkinsi*

2 + 3 in dry areas close to Jaen.

Collared Warbling Finch *Poospiza hispaniolensis*

5 along the road between Piura and Olmos and 2 Quebrada Frejolillo.

Saffron Finch *Sicalis flaveola*

Common Piura and Jaen.

Grassland Yellow Finch *Sicalis luteola*

1 Pomacotch lake and 3 in the same place 2 days after.

Sulphur-throated Finch *Sicalis taczanowskii*

15 the first day along the road to Los Organos.

Blue-black Grassquit *Volatinia jacarina*

Seen 17 days in lowlands.

Black-and-white Seedeater *Sporophila luctuosa*

1 in the rice fields 5 km North of Jaen.

Yellow-bellied Seedeater *Sporophila nigricollis*

Seen 8 days on the East slope and in the Marañon Valley

Parrot-billed Seedeater *Sporophila peruviana*

A few seen the first 3 days (Los Organos and Piura) and common Olmos.

Drab Seedeater *Sporophila simplex*

Seen 6 days, Los Organos, Piura, Olmos, Jaen.

Chestnut-bellied Seedeater *Sporophila castaneiventris*

5 Abra Patricia, 2 Rio Romero and 4 Moyobamba.

Chestnut-throated Seedeater *Sporophila telasco*

Seen 8 days. Very common around Jaen.

Lesser (Chestnut-bellied) Seed Finch *Oryzoborus angolensis*

A few seen 4 days. Rioja, Moyobamba, Yurimaguas Road and Pumarinri.

Band-tailed Seedeater *Catamenia analis*

1 on the road to Cajamarca, common Rio Chonta and La Encanada.

Plain-colored Seedeater *Catamenia inornata*

Common Rio Chonta. A few seen La Encanada and Celadin.

Dull-colored Grassquit *Tiaris obscurus*

Seen 7 days. Both in the west and in the east.

Orange-billed Sparrow *Arremon aurantirostris*

Along the road between Rioja and Abra Patricia on 1350 m.

Black-capped Sparrow *Arremon abeillei*

Seen 3 days in Olmos area and 2 days in the Jaen area.

Rufous-naped (Yellow-breasted) Brush Finch

Atlapetes latinuchus

Seen 8 days in humid forest on high elevation.

Bay-crowned Brush Finch *Atlapetes seebohmi*

App 20 at Abra Porculla.

White-winged Brush Finch *Atlapetes leucopterus*

Fairly common Limon de Porculla, Abra Porculla. Also 5 seen Chirinos.

White-headed Brush Finch *Atlapetes albiceps*

App. 50 Quabrada Frejilillo.

Rufous-eared Brush Finch *Atlapetes rufigenis*

3 seen La Encanada.

Chestnut-capped Brush Finch *Buarremon brunneinucha*

1 that only Boris saw at 1750 m close to Chirinos.

Stripe-headed Brush Finch *Buarremon torquatus*

2 on the Road from Balsas to Abra Barro Negro at 2800 m.

Red Pileated (Red-crested) Finch

Coryphospingus cucullatus

1 + 2 dry areas close to Jaen and 10 along the road to Chirinos.

Red-capped Cardinal *Paroaria gularis*

1 + 1 seen Pumarinri.

Black-faced Tanager *Schistochlamys melanopis*

A few days seen 5 days in the east.

Magpie Tanager *Cissopis leverianus*

1 – 10 seen the last 10 days.

Black-and-white Tanager *Conothraupis speculigera*

2 along the road between Olmos – Limon de Porculla.

White-capped Tanager *Sericossypha albocristata* (VU)

3 (same birds ?) seen 2 days Yambrasbamba.

Rufous-crested Tanager *Creurgops verticalis*

3 Yambrasbamba and 2 along the road between Rioja – Abra Patricia at 1700 m.

Black-eared Hemispingus *Hemispingus melanotis*

1 Yambrasbamba.

Piura Hemispingus *Hemispingus piurae*

1 Abra Porculla

Superciliaried Hemispingus *Hemispingus superciliaris*

1 along the road from Balsas to Yambrasbamba at 2800 m.

Drab Hemispingus *Hemispingus xanthophthalmus*

1 Yambrasbamba.

Grey-hooded Bush Tanager *Cnemoscopus rubrirostris*

A few seen both days at Abra Patricia.

Buff-bellied Tanager *Thlypopsis inornata*

5 along the road on the west slope of the Marañon Valley, 3 Hoembo Ecoan and 1 + 1 Yambrasbamba.

Yellow-crested Tanager *Tachyphonus rufiventer*

Seen 5 days, just a few each day in Abra Patricia, Rioja, Moyobamba and Yurimaguas road.

White-lined Tanager *Tachyphonus rufus*

Seen 8 days, never common just a few seen each days. Best places Moyobamba and Pumarinri but also Yurimaguas road.

Huallaga (Black-bellied) Tanager *Ramphocelus melanogaster*

20 + 2 Abra Patricia – Rioja. 20 + 10 Moyobamba.

Silver-beaked Tanager *Ramphocelus carbo*

1 Jaen, 2 Chirinos. Common Moyobamba, Pumarinri and Yurimaguas road.

Blue-grey Tanager *Thraupis episcopus*

The most common Tanager. Seen more or less everywhere.

Palm Tanager *Thraupis palmarum*

2 Chirinos. Common Rioja, Rio Romero, Moyobamba, Yurimaguas road and Pumarinri.

Blue-capped Tanager *Thraupis cyanocephala*

Seen 5 days. Common in and around Abra Patricia.

Blue-and-yellow Tanager *Thraupis bonariensis*

Seen 5 days. Abra Porculla, Common Rio Chonta, Celendin and Leymebaba.

Vermilion Tanager *Calochaetes coccineus*

2 + 3 Afluente

Hooded Mountain Tanager *Buthraupis montana*

6 + 5, 2 days Abra Patricia.

Lacrimose Mountain Tanager *Anisognathus lacrymosus*

Seen 5 days. As most 10 individuals.

Yambrasbamba, Afluente, Abra Patricia.

Scarlet-bellied Mountain Tanager *Anisognathus igniventris*

2 about 30 min drive from Celendin along the road to Cajamarca.

Blue-winged Mountain Tanager *Anisognathus somptuosus*

1 Along the road between Leymebamba – Jaen, 10 Chirinos and 5 Abra Patricia.

Grass-green Tanager *Chlorornis riefferii*

1 Yambrasbamba, 10 + 10, 2 days Abra Patricia.

Yellow-throated Tanager *Iridosornis analis*

1 Abra Patricia, 3 Afluente.

Yellow-scarfed Tanager *Iridosornis reinhardti*

4 at the parking lot Abra Patricia.

Fawn-breasted Tanager *Pipraeidea melanonota*

1 Leymebamba and 1 Yambrasbamba.

Orange-eared Tanager *Chlorochrysa calliparaea*

5 Afluente

Turquoise Tanager *Tangara mexicana*

Seen 4 days. 3 – 10 individuals. Abra Patricia, Afluente, Rio Romero.

Paradise Tanager *Tangara chilensis*

Seen 8 days. Abra Patricia, Afluente, Rio Romero, Yurimaguas Rad and Pumarinri.

Green-and-gold Tanager *Tangara schrankii*

1 – 2 seen 4 days. Abra Patricia, Afluente and Yurimaguas Road.

Golden Tanager *Tangara arthus*

20 + 20, 2 days Abra Patricia and 2 Moyobamba.

Saffron-crowned Tanager *Tangara*

xanthocephala

Seen 5 days, 2 – 10 individuals. Chirinos, Yambrasbamba, Abra Patricia and Afluente

Golden-eared Tanager *Tangara chrysotis*

5 + 2 Afluente

Flame-faced Tanager *Tangara parzudakii*

Seen 4 days. 2 Chirinos, 20 Yambrasbamba, 20 Abra Patricia and 4 Afluente.

Yellow-bellied Tanager *Tangara xanthogastra*

Seen 4 days. 4 + 3 Afluente, 1 + 2 Moyobamba.

Dotted Tanager *Tangara varia*

1 Yurimaguas road (The last day of the trip)

Bay-headed Tanager *Tangara gyrola*

Seen 4 days. 10 + 3 Afluente, 1 Tarapoto and 1 Yurimaguas Road.

Burnished-buff Tanager *Tangara cayana*

2 Afluente and 1 Moyobamba.

Golden-naped Tanager *Tangara ruficervix*

2 Chirinos.

Metallic-green Tanager *Tangara labradorides*

2 Abra Patricia

Blue-browed Tanager *Tangara cyanotis*

1 + 1 Afluente

Blue-necked Tanager *Tangara cyanicollis*

Een 6 days. Antenna road Jaen, Chirinos, Afluente, Moyobamba and Yurimaguas road.

Beryl-spangled Tanager *Tangara nigroviridis*

5 Chirinos, Fairly common Abra Patricia and Afluente.

Blue-and-black Tanager *Tangara vassorii*

Fairly common Yambrasbamba, Abra Patricia and Afluente.

Silver-backed Tanager *Tangara viridicollis*

1 Abra Porculla, Common Chirinos, a few seen Yambrasbamba and Abra Patricia.

Straw-backed (Green-throated) Tanager

Tangara argyrofenges (VU)

1 Male Yambrasbamba

Opal-crowned Tanager *Tangara callophrys*

1 seen by Boris Afluente

Swallow Tanager *Tersina viridis*

1 Afluente, 3 + 6 Moyobamba and 2 Yurimaguas road.

Black-faced Dacnis *Dacnis lineata*

1 + 1 Afluente, 5 + 3 Moyobamba and 5 Yurimaguas road.

Blue Dacnis *Dacnis cayana*

2 Rio Romero, 34 Moyobamba and 7 Pumarinri.

Short-billed Honeycreeper *Cyanerpes nitidus*

1 + 2 Pumarinri.

Purple Honeycreeper *Cyanerpes caeruleus*

A few seen 6 days. Abra Patricia, Afluente, Rio Romero, Moyobamba and Yurimaguas road.

Green Honeycreeper *Chlorophanes spiza*

6 Moyobamba and 1 Yurimaguas road.

Golden-collared Honeycreeper *Iridophanes pulcherrimus*

1 Female Chirinos

Yellow-backed Tanager *Hemithraupis flavicollis*

1 male Pumarinri and 2 Yurimaguas road.

Cinereous Conebill *Conirostrum cinereum*

Seen 6 days (1 – 10 individuals) in dryer areas close to the coast.

Blue-backed Conebill *Conirostrum sitticolor*

4 San Lorenzo

Capped Conebill *Conirostrum albifrons*

10 Yambrasbamba

Moustached Flowerpiercer *Diglossa mystacalis*

2 at 2800 m along the road between Balsas and Leymebamba and 1 Hoembo Ecoan

Black-throated Flowerpiercer *Diglossa*

brunneiventris

Common Rio Chonta, Cajamarca, Celendin and Balsas.

White-sided Flowerpiercer *Diglossa albilatera*

A few seen 5 days. Pedro Ruiz, Chirinos, Yambrasbamba and Abra Patricia.

Bluish Flowerpiercer *Diglossopsis caerulescens*

1 + 3 + 3 Yambrasbamba and Abra Patricia.

Masked Flowerpiercer *Diglossopsis cyaneus*

Fairly common Yambrasbamba, Abra Patricia and Afluente.

Common Bush Tanager *Chlorospingus ophthalmicus*

Fairly common Yambrasbamba, Abra Patricia and Afluente.

Yellow-whiskered (Short-billed) Bush Tanager *Chlorospingus parvirostris*

2 Yambrasbamba, 5 + 5 Abra Patricia.

Yellow-throated Bush Tanager *Chlorospingus flavigularis*

2 Afluente

Ashy-throated Bush Tanager *Chlorospingus canigularis*

Fairly common Afluente but only seen here.

Purple-throated Euphonia *Euphonia chlorotica*

Seen 9 days, Balsas, Leymebamba, Jaen area, Chirinos and Pumarinri.

Thick-billed Euphonia *Euphonia laniirostris*

Seen 6 days in the end of the trip. Moyobamba, Yurimaguas road and Pumarinri.

Golden-rumped Euphonia *Euphonia cyanocephala*

2 along the road between Leymebamba and Jaen.

White-lored (Golden-bellied) Euphonia

Euphonia chrysopasta

4 + 2 Pumarinri.

Bronze-green Euphonia *Euphonia mesochrysa*

5 Abra Patricia and 5 Yurimaguas road.

Orange-bellied Euphonia *Euphonia xanthogaster*

Sen 7 days. Common Abra Patricia and Yurimaguas road.

Blue-naped Chlorophonia *Chlorophonia cyanea*

3 Afluente

Olive (Carmioli's) Tanager *Chlorothraupis frenata*

2 Yurimaguas road.

Tooth-billed (Hepatic) Tanager *Piranga lutea*

Seen 5 days, a few each of these days. Olmos, Abra Porculla, Rio Chonta, Balsas.

Summer Tanager *Piranga rubra*

Seen 7 days, a few each of these days.

Scarlet Tanager *Piranga olivacea*

1 + 5 + 10, Moyobamba and Yurimaguas road.

Southern Yellow (Golden-bellied) Grosbeak

Pheucticus chrysogaster

Seen 9 days in the west.

Slate-colored Grosbeak *Saltator grossus*

1 singing Moyobamba.

Buff-throated Saltator *Saltator maximus*

A few seen 6 days in the East.

Greyish Saltator *Saltator coerulescens*

Seen 8 days in the East.

Golden-billed Saltator *Saltator aurantiirostris*

10 Rio Chonta, 8 La Encanada and 5 Celendin.

Black-cowled Saltator *Saltator nigriceps*

2 Limon de Porculla and 10 Abra Porculla.

Masked Saltator *Saltator cinctus*

4 Yambrasbamba.

Streaked Saltator *Saltator striatipectus*

Seen 9 days. Common, Balsas, Leymebamba, Jean, Chirinos.

Blue-black Grosbeak *Cyanocompsa cyanoides*

1 along the road between Jaen and Pedro Ruiz and 1 Moyobamba.
